Prabhavit Gupta

Senior AI/ML Engineer

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | Venice, Italy

Summary

I design and build advanced AI/ML systems end-to-end and ship them into production. I specialize in deploying Large Language Models (LLMs), RAG architectures, and robust automation pipelines that transform operational capabilities. At FlowSpace, I engineered scalable AI orchestration pipelines with tool use and structured outputs, integrating models into microservices via REST APIs. I thrive in bridging complex user workflows with robust machine learning capabilities, focusing on observability, rigorous evaluations, and mission impact.

Skills

- **AI/ML & LLMs:** Large Language Models (Claude, OpenAI), Natural Language Processing (NLP), Generative AI, Retrieval-Augmented Generation (RAG), prompt engineering, hallucination detection, evaluations
- **Engineering & MLOps:** Production pipelines, workflow orchestration (n8n), microservices, API integrations, structured outputs, observability, Claude Code (MCP, tool use, evals)
- **Languages & Frameworks:** Python, TypeScript, Node.js, JavaScript, Next.js, React, Laravel, PostgreSQL, Supabase
- **Delivery:** Translating mission requirements into AI-enabled capabilities, deploying scalable cloud services, human-in-the-loop review systems

Experience

FlowSpace.co **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Engineered an end-to-end AI listing pipeline utilizing NLP and LLMs to ingest unstructured documents in any format (PDF, web pages), extract structured data via Claude and OpenAI APIs, and push clean data after automated hallucination checks.
- Designed and deployed support AI agents using retrieval-augmented generation (RAG) to query live platform data, escalating complex cases to a human on low confidence.
- Optimized AI integrations within a scalable Next.js and Laravel production architecture, driving platform growth from 2,000 to 4,500+ active users.
- Developed robust automation pipelines using n8n and REST APIs to seamlessly connect external platforms (Attio, Amplemarket, Nexudus) into the operational ecosystem.

Get2Germany.com **Jan 2024 – May 2024**
Developer & Automation Specialist (Part-time) *Berlin, Germany*

Integrated Google APIs and built AI-driven automation tools to process user data and scale operations. Stack: n8n, Google APIs.

Clubee.com **Sep 2023 – Aug 2024**
Developer & QA (Full-time, Freelance) *Foetz, Luxembourg*

Integrated distributed API microservices, executed QA testing, and built administrative tools for a scalable platform.

Tractionboard.co **Aug 2023 – Oct 2023**
Developer (Internship) *Utrecht, Netherlands*

Implemented OpenAI API integrations and resolved production UI issues for a data-driven web platform.

Freelance Projects

- **Urlink** (2025), AI-Assisted Developer. Engineered a platform utilizing modern AI toolsets (Next.js, Supabase) to deliver client-driven automations.
- **UltraStrategy** (2024 to 2025), AI Automation Developer. Built an LLM data extraction and CV-parsing pipeline with n8n and Eden AI for multi-user profiles.
- **Qomodo** (2024 to 2025), AI Developer. Developed an administrative dashboard integrating APIs and frontend state management.

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Tray.AI Build Practitioner (Sep 2024)

Education

Ca' Foscari University of Venice Oct 2020 – Jun 2024
BA Philosophy, International Studies & Economics

Work authorization: European Long Term Residence Permit (Italy), open to relocation. **Languages:** Hindi (native), English (professional), Italian (beginner).
