Profile: Forward deployed AI engineer specializing in embedding with enterprise teams to turn AI ambition into working production systems. Experienced in rapid prototyping, bridging the gap between ambiguous business problems and scalable architectures using Python, LLMs, and API integrations. Proven ability to own end-to-end execution of complex integrations for strategic partners, driving rapid time-to-value.

Core Competencies

- **Customer-Facing Engineering:** Embedded directly with enterprise clients to architect, build, and deploy production AI pipelines and resilient API integrations.
- **Agentic AI & LLMs:** Anthropic API, OpenAI, multi-step orchestration, RAG, and structured output parsing.
- **Software Architecture:** End-to-end ownership in Python, TypeScript, React/Next.js, and SQL databases, ensuring high performance and reliability.
- **Enterprise Integration:** Secure API workflows, managing rate limits, webhooks, and legacy architectures.

Professional Experience

Full-Stack & AI Engineer (Freelance) **Mar 2024 – Aug 2026**
FlowSpace.co *London, UK (Remote)*

- Embedded directly into customer ecosystems to build integrations against APIs and booking systems, managing rate limits, webhooks, and retry logic across service boundaries.
- Built and shipped an AI data pipeline orchestrating multi-step LLM agents with tool use and RAG to ingest documents across various formats.
- Designed strict human-in-the-loop governance workflows with schema validation and escalation paths, enabling safe deployment of AI outputs.
- Developed RAG-backed support agents answering complex queries against live platform data.

Developer & Automation Specialist **Jan 2024 – May 2024**
Get2Germany.com *Berlin, Germany*

- Delivered rapid automation solutions integrating Google APIs and AI extraction tools to streamline workflows for discovering courses, internships, and jobs.

Developer & QA (Freelance) **Sep 2023 – Aug 2024**
Clubee.com *Foetz, Luxembourg*

- Executed frontend API integrations, automated unit testing, and deployed robust QA processes, bridging technical implementation with end-user requirements.

Developer Intern **Aug 2023 – Oct 2023**
Tractionboard.co *Utrecht, Netherlands*

- Engineered initial AI features by integrating the OpenAI API and Sendgrid, accelerating early prototyping and platform adoption.

Independent Projects

AI Automation Developer | UltraStrategy **2024 – 2025**

- Engineered a custom CV-parsing data extraction engine utilizing LLMs to streamline operations and enhance platform matching capabilities.

Project Manager & AI-Assisted Developer | Urlink **2025**

- Worked directly with the client to translate business requirements into a scalable platform, architecting the application logic using Next.js and Supabase.

Education & Certifications

Ca' Foscari University *Venice, Italy*
BA Philosophy, International Studies & Economics (Minor in Entrepreneurship) **Oct 2020 – Jun 2024**

Tray.AI Build Practitioner & Microsoft Copilot Studio Agent Academy **Sep 2024**
