PROFESSIONAL SUMMARY

Software Developer and AI Specialist with a proven track record of shipping production-grade agentic AI systems. Experienced in integrating large language models, retrieval-augmented generation (RAG), and complex automation workflows to automate enterprise tasks. Adept at turning theoretical ML concepts into scalable products, aligning closely with the demands of scalable agent-based systems and NLP.

EXPERIENCE

FlowSpace.co **Mar 2024 – Aug 2026**
Lead Developer (Full-time, Freelance) *London, UK (Remote)*

- Built a production AI listing bot using n8n, Claude, and TypeScript that processes multi-format brochures (PDFs, images, spreadsheets) to auto-draft platform listings with human-in-the-loop review.
- Developed support AI agents connected to live data via RAG with confidence-based escalation routing.
- Led a live-product migration off a legacy stack to a Next.js and Laravel backend, scaling the platform from 2,000 to over 4,500 active users.
- Shipped end-to-end full-stack features including OfficeRnD and Nexudus API integrations, and CRM/GTM workflows.

Urlink **Apr 2025 – Jul 2025**
Project Manager & AI-Assisted Developer (Freelance) *Barcelona, Spain (Remote)*

- Built the platform logic using Next.js and Supabase through AI-assisted development pipelines.
- Implemented and deployed client-driven automations.

UltraStrategy **Dec 2024 – May 2025**
AI Automation Developer (Collaborator) *France (Remote)*

- Engineered a CV-parsing LLM data extraction pipeline using n8n and Eden AI for dynamic user profile ingestion.

Clubee.com **Sep 2023 – Aug 2024**
Developer & QA (Full-time, Freelance) *Foetz, Luxembourg (Remote)*

- Integrated the Clubee API across the frontend and built shop and domain-integration tools.
- Ran comprehensive unit testing and QA workflows for robust deployments.

INDEPENDENT PROJECTS

- **LLM Document Parser**: Built an open-source tool (github.com/prab-gupta/llm-doc-parser) for extracting structured JSON data from unstructured text using large language models.

TECHNICAL SKILLS

- **Languages & Frameworks:** Python, TypeScript, JavaScript, Next.js, Node.js, Laravel (PHP).
- **AI & Machine Learning:** Applied LLM integration, RAG, AI agents in production, prompt engineering, data extraction pipelines, OpenAI/Claude APIs, Eden AI, Claude Code.
- **Data & Infrastructure:** Postgres, Supabase, REST APIs, webhooks.
- **Tools:** GitHub, n8n, Make, Playwright, Figma, Postman.

EDUCATION

Ca' Foscari University of Venice **Oct 2020 – Jun 2024**
BA in Philosophy, International Studies & Economics (Minor: Entrepreneurship)

- Developed strong analytical and reasoning skills complementing self-taught computer science and software engineering foundations.
