PROFILE

AI Solutions & Automation Engineer with extensive experience in designing and deploying LLM-based agents, complex data flows, and full-stack platforms. Proven track record of owning high-impact projects from first principles to production, working directly with stakeholders to translate open-ended business challenges into robust technical solutions. Highly proficient in system design, API integrations, and debugging across modern stacks (TypeScript, Python, Next.js, Laravel). Seeking a Forward Deployed Engineer role to leverage hands-on AI expertise and client-facing skills to deliver transformative enterprise solutions.

TECHNICAL SKILLS

- **Languages & Frameworks:** TypeScript, Python, Laravel (PHP), Next.js, JavaScript
- **AI & Agents:** LLM Integration (Claude, OpenAI), AI Agents, RAG, n8n, Eden AI, Prompt Engineering, Claude Code
- **APIs & Integration:** REST APIs, Webhooks, Third-party Integrations (CRM, Google, Custom platforms)
- **Testing & Tools:** Playwright, Unit Testing, Postman, GitHub, Figma, Jira

PROFESSIONAL EXPERIENCE

Lead Developer (Full-time, Freelance) Mar 2024 – Present
FlowSpace.co London, UK (Remote)

- **AI & Automation:** Designed and deployed an AI Listing Bot (n8n, Claude, TypeScript) that ingests brochures in any format, drafts full listings with an LLM, and pushes to backend after human-in-the-loop review. Owned end to end.
- **System Design & Migration:** Led platform migration from a legacy no-code stack to Next.js + Laravel, architecting the data model and driving the cutover, successfully scaling from 2,000 to 4,500+ users.
- **Enterprise Integrations:** Built scalable CRM & GTM automations for automated lead capture, enrichment, and routing. Integrated OfficeRnD and Nexudus APIs for complex automated bookings.
- **Client-Facing & Ownership:** Triaged and resolved customer issues end-to-end, translating business needs into technical requirements, and coordinating delivery with an external agency.

Automation Developer (Collaborator) Dec 2024 – May 2025
UltraStrategy.com France (Remote)

- Engineered an LLM-based CV parsing and data extraction tool using n8n and Eden AI, optimizing data flows for multiple user profiles.

Project Manager & AI-Assisted Developer (Freelance) Apr 2025 – Jul 2025
Urlink Barcelona, Spain (Remote)

- Built platform logic using AI-assisted development (bolt.new) and implemented client-driven automations. Stack included GitHub, Netlify, and Supabase.

AI & Low-Code Developer (Collaborator) 2024 – Jan 2025
Qomodo Milan, Italy

- Built a branch management dashboard for enterprise companies, faithfully translating complex Figma designs into working frontends.

Lead Developer & Automation Specialist (Part-time) Jan 2024 – May 2024
Get2Germany.com Berlin, Germany (Remote)

- Integrated Google APIs and built AI automation tools (n8n, Python) to discover and process courses, internships, and job postings, optimizing the core database for efficiency.

Low-Code Developer & QA (Full-time, Freelance) Sep 2023 – Aug 2024
Clubee.com Foetz, Luxembourg (Remote)

- Integrated the Clubee API across the frontend, developed domain-integration tools, and maintained rigorous QA standards through unit testing.

Low-Code Developer (Internship) Aug 2023 – Oct 2023
Tractionboard.co Utrecht, Netherlands (Remote)

- Developed platform features integrating OpenAI/ChatGPT and SendGrid, focusing on robust responsive designs and rapid debugging.

EDUCATION

Ca' Foscari University of Venice Oct 2020 – Jun 2024
BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

CERTIFICATIONS & LANGUAGES

- **Certifications:** Tray.AI Build Practitioner, Microsoft Copilot Studio Agent Academy.
- **Languages:** English (Professional), Italian (Beginner), Hindi (Native).
- **Work Authorization:** European Long Term Residence Permit (Italy). Open to remote or hybrid work in Milan/Rome.
