Profile

Forward deployed AI engineer experienced in embedding with enterprise clients to translate business challenges into full-stack, production-ready AI solutions. Proven track record in orchestrating multi-step LLM agents, deploying scalable cloud-native architectures, and establishing robust CI/CD pipelines. Adept at bridging the gap between technical architecture and business objectives to secure, deploy, and govern Agentic AI systems in complex environments.

Core Competencies

- **AI & Agentic Systems:** LLM deployment, multi-step agent orchestration, Autonomous Agent implementations, Vector databases, RAG pipelines, OpenAI / Anthropic APIs.
- **Backend & Cloud-Native Stack:** Python, TypeScript, Java, REST and GraphQL APIs, OAuth/JWT authentication, AWS/GCP cloud deployments.
- **Enterprise Delivery:** CI/CD pipelines, Docker, Kubernetes, API integrations, automation scripts, stakeholder management, technical workshops.

Professional Experience

FlowSpace.co *London, UK (Remote)*
Forward Deployed AI Engineer (Freelance) *Mar 2024 – Present*

- Built and deployed an AI listing pipeline orchestrating multi-step LLM agents with tool use to ingest documents in diverse formats and push validated data to production.
- Designed human-in-the-loop workflows with strict schema validation, empowering non-technical stakeholders to securely review AI outputs before deployment.
- Embedded with business units to integrate REST/GraphQL APIs, booking systems, and CRMs, translating business needs into client-tailored technical solutions.
- Drove the full-stack migration of a legacy platform to a scalable, cloud-native architecture with CI/CD deployment, directly supporting user growth from 2,000 to over 4,500.

Urlink *Barcelona, Spain*
Full-Stack AI Developer (Freelance) *Apr 2025 – Jul 2025*

- Partnered directly with clients to run technical discovery and translate business logic into functional platforms, shipping robust full-stack features and API integrations.
- Built automated data pipelines and provided diagnostic support for production issues, managing client-driven deadlines efficiently.

UltraStrategy.com *France*
AI Automation Engineer (Collaborator) *Dec 2024 – May 2025*

- Delivered an LLM-powered data extraction pipeline integrating enterprise automation platforms, optimizing internal operational workflows with secure API authentication.

- Built custom automation scripts and managed data integrations leveraging Python and advanced AI frameworks.

Get2Germany.com *Berlin, Germany*
Automation Developer (Part-time) *Jan 2024 – May 2024*

- Developed AI tools utilizing Google Cloud APIs to automate the discovery and processing of professional opportunities, scaling data workflows effectively.

Clubee.com *Foetz, Luxembourg*
Full-Stack Developer & QA (Freelance) *Sep 2023 – Aug 2024*

- Integrated complex REST APIs across the frontend/backend and instituted rigorous unit testing to guarantee reliability in production environments.

Education

Ca' Foscari University *Venice, Italy*
