PROFILE

AI Solutions & Automation Engineer with a strong track record of building and shipping LLM-driven applications, intelligent workflows, and complex API integrations. Experienced in acting as a bridge between AI technology and operational needs, deploying full-stack solutions (TypeScript, Next.js, Python), and directly resolving customer challenges. Eager to bring extreme ownership and a builder mindset to a Forward Deployed Engineering role.

CORE COMPETENCIES

- **Engineering:** TypeScript, Next.js, React, Node.js, Python, Laravel, Playwright QA.
- **AI & LLMs:** Prompt engineering, AI agents, RAG/chatbots, LLM data parsing, Claude Code, OpenAI.
- **Infrastructure & Tools:** GitHub, Supabase, n8n, Postman, REST APIs, Google Cloud.

PROFESSIONAL EXPERIENCE

FlowSpace.co — London, UK (Remote)
Lead Developer (Freelance) — Mar 2024 - Present

- Engineered a flagship AI listing bot providing human-in-the-loop automation: built a pipeline to ingest workspaces via any format (PDF, web, spreadsheet), draft listings using LLMs, and push to the backend API.
- Led the critical migration from a legacy no-code stack to a Next.js frontend and Laravel backend, successfully scaling the platform from 2,000 to over 4,500 active users.
- Delivered full-stack integrations with OfficeRnD and Nexudus public APIs for automated bookings.
- Developed and deployed AI-driven customer-support agents, GTM CRM automations, and a commute-time calculator, acting as a forward-deployed engineer to triage and resolve customer issues end-to-end.

Urlink — Barcelona, Spain (Remote)
Project Manager & AI-Assisted Developer — Apr 2025 - Jul 2025

- Built AI-generated platforms and logic tailored for client-driven automations.
- Leveraged Supabase, Netlify, and AI coding assistants to ship UIs rapidly based on client requirements.

UltraStrategy.com — France (Remote)
Automation Developer — Dec 2024 - May 2025

- Built an advanced CV-parsing and multi-profile ingestion tool utilizing n8n and Eden AI for a French-based organization.

Qomodo — Milan, Italy
AI & Low-Code Developer — 2024 - Jan 2025

- Implemented complex Figma designs into working UIs and built a branch-management dashboard.

Get2Germany.com Berlin, Germany (Remote)
Lead Developer & Automation Specialist Jan 2024 - May 2024

- Developed AI automation workflows for identifying candidate placements and matching them with opportunities.
- Optimized databases and implemented extensive Google API integrations for the core product.

Clubee.com Foetz, Luxembourg
Low-Code Developer & QA Sep 2023 - Aug 2024

- Integrated extensive REST APIs for front-end architecture and established unit testing and QA pipelines.

EDUCATION

Ca' Foscari University of Venice Venice, Italy
B.A. Philosophy, International Studies & Economics (Minor: Entrepreneurship) Oct 2020 - Jun 2024

LANGUAGES & CERTIFICATIONS

- **Languages:** English (Professional C1), Italian (Beginner), Hindi (Native). *Note: Proven experience delivering technical deployments for French-speaking clients.*
- **Certifications:** Microsoft Copilot Studio Agent Academy, Tray.AI Build Practitioner.
