PROFESSIONAL SUMMARY

AI Solutions & Automation Engineer with a strong track record of building and deploying end-to-end Generative AI applications, LLM-driven architectures, and RAG systems in production. Expert in bridging AI models (Claude, OpenAI, Llama) with backend APIs, orchestrating complex workflows, and delivering high-quality, clean code in Agile environments. Proven ability to scale platforms, optimize API performance, and deliver AI-automated solutions for real-world enterprise bottlenecks.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Generative AI & LLMs:** LLM Integration (OpenAI, Claude, Llama), RAG (Retrieval-Augmented Generation), Prompt Engineering, Fine-tuning Concepts (LoRA/QLoRA), Semantic Search, NLP.
- **Frameworks & Orchestration:** LangChain, LlamaIndex, n8n, AI Agents (Human-in-the-loop).
- **Software Engineering:** Python, TypeScript, Laravel, Next.js, FastAPI / REST APIs, Clean Code, Agile (Scrum/Kanban).
- **Infrastructure & Tools:** Vector Databases (Pinecone, Chroma), Docker, Git, CI/CD, Postman, Playwright QA.

PROFESSIONAL EXPERIENCE

Lead Developer (AI & Full-Stack) **Mar 2024 – Present**
FlowSpace.co *London, UK (Remote)*

- Designed and deployed a flagship Generative AI 'Listing Bot' to automate workspace onboarding. Integrated multi-format ingestion pipelines (PDFs, web, images) utilizing advanced LLM parsing and RAG architecture.
- Engineered human-in-the-loop AI workflows that significantly reduced manual content-entry bottlenecks.
- Led the architectural migration from a legacy system to a robust Next.js frontend and Laravel backend, successfully scaling the platform from 2,000 to over 4,500 active users.
- Developed and integrated public REST APIs for dynamic resource scheduling and CRM synchronization.

Project Manager & AI-Assisted Developer **Apr 2025 – Jul 2025**
Urlink *Barcelona, Spain*

- Built AI-driven platform features and logic using modern AI development stacks.
- Delivered client-driven automations, leveraging Supabase and seamless AI/UI integrations.

Automation Developer (AI Data Parsing) **Dec 2024 – May 2025**
UltraStrategy.com *France*

- Developed a robust CV-parsing orchestration tool using n8n and Eden AI for a multi-profile platform.
- Implemented semantic analysis pipelines to match candidate profiles accurately.

AI & Low-Code Developer **2024 – Jan 2025**
Qomodo *Milan, Italy*

- Built enterprise branch-management dashboards and integrated AI support capabilities.

Lead Developer & Automation Specialist **Jan 2024 – May 2024**
Get2Germany.com *Berlin, Germany*

- Designed AI automations utilizing Google APIs to optimize job and internship discovery flows.
- Improved database performance and implemented responsive UI architectures.

Low-Code Developer & QA Engineer **Sep 2023 – Aug 2024**
Clubee.com *Luxembourg*

- Engineered rigorous QA pipelines via Playwright, integrated domain systems, and maintained clean code principles.

EDUCATION

Ca' Foscari University of Venice **Oct 2020 – Jun 2024**
B.A. Philosophy, International Studies & Economics (Minor in Entrepreneurship)
