Summary

AI Engineer specializing in autonomous agents, API orchestration, and human-in-the-loop workflows. I build production LLM systems with Claude, OpenAI, and custom API servers (MCP). My background directly aligns with Abler/Jobbol's mission in recruitment tech, having built an LLM-powered CV parsing tool for UltraStrategy and AI job-matching automation for Get2Germany. I orchestrate complex RAG and multi-modal pipelines connecting external APIs, corporate data, and human review steps to build reliable, high-impact workflows.

Skills

- **AI & Agents:** Agent orchestration (LangChain/LangGraph concepts), RAG, Human-in-the-loop (HITL), MCP Servers integration, Prompt Engineering, Claude, OpenAI APIs, Eden AI, n8n.
- **Engineering & Data:** TypeScript, Python, Next.js, REST APIs, Vector DBs (Supabase), SQL.
- **Testing & CI/CD:** Playwright, GitHub, Model Experimentation Pipelines.
- **Languages:** English (Professional), Italian (Beginner), Hindi (Native).

Professional Experience

FlowSpace.co **Mar 2024 – Present**
Lead AI & Full-Stack Developer *Remote*
Own product and AI automation end-to-end for a workspace marketplace.

- Designed and shipped an autonomous AI listing bot with a **Human-in-the-loop** mechanism. The agent ingests multi-modal data (PDFs, images, websites) to draft listings and pushes them to the backend upon review.
- Built intelligent customer support agents with conversation memory to automate query resolution.
- Developed CRM and GTM automations, integrating AI with corporate tools to route leads efficiently.
- Orchestrated API workflows (OfficeRnD, Nexudus) connecting agents to external services.
- Led the migration of the platform to a coded Next.js stack, ensuring scalable data architecture.

UltraStrategy **Dec 2024 – May 2025**
AI Solutions Developer (Freelance) *Remote*

- Developed a **CV-parsing system** leveraging LLM data extraction (Eden AI), directly aligning with HR/recruiting technology needs.
- Integrated parsing logic into a scalable platform serving multiple user profiles and recruiting pipelines.

Get2Germany **Jan 2024 – May 2024**
Automation Specialist & Developer *Remote*

- Built AI automation tools tailored to career discovery: matching users with courses, internships, and jobs.
- Integrated Google APIs and optimized backend databases (Supabase) to support scalable search and matching.

Clubee & Urlink **Sep 2023 – Jul 2025**
Developer & Integrations Specialist *Remote*

- Developed frontend platforms using TypeScript and integrated third-party REST APIs and Webhooks.
- Managed end-to-end testing (QA/Playwright) to ensure reliability for user-facing applications.

Certifications & Education

- **Certifications:** Tray.AI Build Practitioner (Sep 2024), Microsoft Copilot Studio Agent Academy, Introduction to building AI agents.
- **Education: BA Philosophy, International Studies & Economics** – Ca' Foscari University of Venice (Oct 2020 – Jun 2024). Minor: Entrepreneurship.
