## Profile

Machine Learning Engineer specializing in applied LLMs, natural language processing, and scalable AI infrastructure. Proven track record of designing and deploying robust AI-driven applications that extract unstructured data and enhance personalized user experiences in production environments. Adept at leveraging modern machine learning architectures and frameworks to build efficient, maintainable systems that directly impact user engagement, with a strong focus on using LLMs to solve complex data challenges.

## Core Competencies

- **Machine Learning & AI:** Applied LLMs (Claude, OpenAI), NLP, RAG Pipelines, Prompt Engineering, Agent-based Frameworks
- **Languages & Frameworks:** Python, TypeScript, JavaScript, Next.js, Laravel
- **Data Engineering & Backend:** REST APIs, Data Extraction, Workflow Automation, Supabase, CRM Integrations
- **Tools & Practices:** GitHub, Docker, Playwright, CI/CD, Human-in-the-loop Validation, Claude Code

## Professional Experience

**Lead AI Developer (Freelance)** *Mar 2024 - Present*
*FlowSpace.co* *London, UK (Remote)*

- Architected and deployed an AI-powered content understanding system (Python, TypeScript, Claude) that ingests unstructured data from PDFs and images to generate structured, personalized marketplace listings.
- Built human-in-the-loop validation pipelines to ensure high-quality data outputs, directly improving the feed quality and user discovery experience.
- Led the end-to-end migration of a live marketplace to a Next.js and Laravel architecture, optimizing code efficiency and scaling to support 4,500+ active users.
- Developed and shipped AI customer support agents, utilizing advanced LLM prompting to reduce manual triage and resolution times significantly.

**Project Manager & AI Developer (Freelance)** *Apr 2025 - Jul 2025*
*Urlink* *Barcelona, Spain*

- Delivered an AI-native platform leveraging Supabase, Netlify, and advanced LLM logic to execute complex, client-driven data automations and workflows.
- Managed full project lifecycle, architecting efficient data models and delivering functional AI capabilities ahead of schedule.

**AI Automation Engineer (Collaborator)** *Dec 2024 - May 2025*
*UltraStrategy.com* *France*

- Designed and deployed a robust resume-parsing pipeline utilizing LLM data extraction (Eden AI) to serve a multi-profile user platform, demonstrating strong NLP application skills.
- Automated complex workflows to handle diverse data structures efficiently and reliably.

**Lead Developer & Automation Specialist (Part-time)** *Jan 2024 - May 2024*
*Get2Germany.com* *Berlin, Germany*

- Integrated Google APIs and built AI automation tools utilizing n8n to streamline discovery of courses, internships, and jobs.

**Full-Stack Developer & QA (Freelance)** *Sep 2023 - Aug 2024*
*Clubee.com* *Foetz, Luxembourg*

- Implemented REST API integrations across the frontend, developed core domain tools, and enforced code quality through rigorous unit testing and QA.

## Education

**BA Philosophy, International Studies & Economics** *Oct 2020 - Jun 2024*
*Ca' Foscari University of Venice*, Venice, Italy (Minor in Entrepreneurship)

## Certifications & Languages

**Certifications:** Microsoft Copilot Studio Agent Academy, Tray.AI Build Practitioner.
**Work Authorization:** European Long Term Residence Permit (Italy). Open to relocation.
**Languages:** English (Professional), Hindi (Native), Italian (Beginner).
