PROFILE

AI Solutions & Automation Engineer with a strong track record of rapidly building and shipping LLM-driven applications and intelligent workflows into production using Claude Code. Experienced in prompt engineering, developing LLM classifiers, and processing multi-modal data inputs. Adept at bridging the gap between raw LLM capabilities and robust software infrastructure, eager to apply expertise in AI-assisted development and production integration to adversarial machine learning and cybercrime detection at Netcraft.

CORE COMPETENCIES

- **Machine Learning & AI:** LLM classifiers, Prompt Engineering, Multi-modal embeddings, Human-in-the-loop workflows, RAG/Chatbots.
- **Software Engineering:** Python, TypeScript, Next.js, Laravel, API integrations.
- **Production Integration:** Orchestrating LLMs in live environments, CI/CD, Playwright QA/SDET.
- **Tools & Automation:** Claude Code, n8n, Make, Supabase, Git, Postman.

PROFESSIONAL EXPERIENCE

FlowSpace.co **Mar 2024 – Present**
Lead Developer *Remote / London, UK*

- Engineered and deployed the flagship AI listing bot, leveraging LLMs to process multi-modal inputs (PDFs, images, websites, spreadsheets) into standardized database schemas.
- Built robust LLM classifiers and extraction pipelines to automate data entry, reducing processing bottlenecks via a human-in-the-loop approval system.
- Led the architectural migration of the legacy platform to a Next.js frontend and Laravel backend, safely scaling the platform to support over 4,500 active users.
- Developed complex API integrations and automated GTM pipelines using AI-assisted coding tools like Claude Code to rapidly ship lead enrichment workflows.

Urlink **Apr 2025 – Jul 2025**
Project Manager & AI-Assisted Developer *Barcelona, Spain (Remote)*

- Developed an AI-driven platform architecture, utilizing tools like bolt.new and Supabase to rapidly prototype and deploy user interfaces and backend logic.
- Implemented client-driven automations, seamlessly integrating LLM capabilities directly into the core product workflow.

UltraStrategy.com **Dec 2024 – May 2025**
Automation Developer *France (Remote)*

- Built and maintained an intelligent CV-parsing tool utilizing n8n and Eden AI, streamlining multi-profile data ingestion.

Clubee.com **Sep 2023 – Aug 2024**
Low-Code Developer & QA *Foetz, Luxembourg (Remote)*

- Integrated complex REST APIs for the frontend architecture and developed comprehensive unit tests and QA pipelines to ensure deployment stability.

EDUCATION

Ca' Foscari University of Venice **Oct 2020 – Jun 2024**
BA Philosophy, International Studies & Economics (Minor in Entrepreneurship) *Venice, Italy*

CERTIFICATIONS

- Microsoft Copilot Studio Agent Academy & Intro to Building AI Agents
- Tray.AI Build Practitioner (Sep 2024) & Tray.AI Build Foundations
