Professional Summary

AI Solutions & Automation Engineer with a strong track record of designing, building, and deploying agentic AI systems in production. Expertise in developing multi-agent workflows, LLM-powered applications using RAG, and intelligent automation systems. Experienced with Python, TypeScript, API integrations, and scaling production-grade machine learning applications from experimentation to deployment. EU Long Term Resident open to hybrid work and relocation to Madrid.

Core Technical Skills

AI Engineering: Agentic AI, Multi-agent Workflows (LangChain/LangGraph concepts), RAG, Prompt Engineering, LLM Data Parsing

Software Engineering: Python, TypeScript, Next.js, Laravel, REST APIs, Microservices, Playwright (QA/SDET)

Infrastructure & Cloud: AWS Concepts (S3, Serverless), Supabase, Git, Postman, CI/CD, n8n, Eden AI

Professional Experience

Lead Developer (AI & Automation) **Mar 2024 – Present**
FlowSpace.co *Remote (London, UK)*

- Designed and deployed a flagship AI agent workflow (Listing Bot) that ingests unstructured multi-format data (PDFs, images, websites) to draft and standardize listings via human-in-the-loop validation, acting autonomously to reduce manual bottlenecks.
- Engineered LLM-powered features and automated customer support agents leveraging prompt engineering and complex API integrations.
- Led the migration from a legacy no-code stack to a robust Next.js frontend and Laravel backend infrastructure, driving platform scale to over 4,500 active users.
- Integrated automated booking flows, CRM lead captures, and lead enrichment microservices utilizing Proptech public APIs (OfficeRnD, Nexudus).

Project Manager & AI-Assisted Developer **Apr 2025 – Jul 2025**
Urlink *Barcelona, Spain*

- Built and shipped an AI-driven platform orchestrating complex business logic and client-facing automations.
- Leveraged AI tooling (bolt.new) and distributed databases (Supabase) to iterate and deploy cloud architectures rapidly.

Automation Developer **Dec 2024 – May 2025**
UltraStrategy.com *France*

- Designed and built an automated LLM-based parsing pipeline integrating Eden AI and n8n.
- Implemented extraction logic to convert unstructured candidate resume data into standardized profiles.

Lead Developer & Automation Specialist **Jan 2024 – May 2024**
Get2Germany.com *Berlin, Germany*

- Engineered AI automations for candidate sourcing, course discovery, and workflow optimizations.
- Restructured database schema for performance and completed comprehensive Google API integrations.

Education

Ca' Foscari University of Venice **Oct 2020 – Jun 2024**
BA Philosophy, International Studies & Economics (Minor in Entrepreneurship)

Certifications

- Microsoft Copilot Studio Agent Academy
- Tray.AI Build Practitioner & Build Foundations
