Summary

I build full-stack applications with AI at the core and deploy them for real customers. At FlowSpace I worked hand-in-hand with enterprise clients to migrate a live marketplace onto Next.js and Laravel, then built the AI layer on top: a document processing pipeline that extracts structured data from any format via LLM tool use, runs source-grounded checks, and produces clean listings with a human in the loop. I also built customer-facing support agents using retrieval-augmented generation. I write TypeScript, Python and Node.js, integrate LLM APIs (OpenAI, Claude) daily, and communicate technical solutions to both technical and non-technical stakeholders.

Skills

- **Languages & frameworks:** TypeScript, JavaScript, Python, Next.js, React, Node.js, Laravel (PHP)
- **AI & LLMs:** LLM APIs (OpenAI, Claude) in production, retrieval-augmented generation, structured outputs, prompt engineering, human-in-the-loop review, evals, AI developer tooling (Claude Code daily)
- **Infrastructure & data:** PostgreSQL, Supabase, REST APIs, webhooks, n8n workflow orchestration, third-party integrations (Attio, OfficeRnD, Nexudus)
- **Customer-facing:** pre-sales and post-implementation work with enterprise clients, scoping technical solutions, explaining complex concepts to non-technical audiences

Experience

FlowSpace.co **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product, mapping the data model and driving the cutover. Scaled it from 2,000 to 4,500+ users.
- Built an AI listing bot with a human in the loop: it takes a brochure in any format (PDF, web page, photo or spreadsheet), drafts the full listing with an LLM, and pushes it to the backend after review.
- Built support AI agents that answer customer queries against live platform data and escalate to a person on low confidence.
- Built CRM and GTM automations with n8n, including a pipeline connecting Attio, Amplemarket and Swan, plus OfficeRnD and Nexudus booking integrations.
- Worked directly with the internal team, an external agency and customers, and resolved issues end to end.
