## Profile

Senior Forward Deployed Full Stack Engineer with deep expertise in designing, customizing, and deploying production-grade enterprise software. Proven track record of operating as a bridge between core engineering and customer success, working directly with stakeholders to translate complex business requirements into scalable integrations. Adept at full-stack TypeScript development, leveraging Angular, Node.js, and modern cloud architectures to accelerate time-to-value for enterprise clients.

## Core Competencies

- **Full-Stack Engineering:** TypeScript, Angular, Node.js, Next.js, HTML/CSS, Python
- **Enterprise Integration:** REST APIs, Webhooks, AWS, Cloud-Native deployments, ERP/CRM integrations
- **Forward Deployed Skills:** Customer-embedded engineering, stakeholder management, requirement translation, architecture
- **Delivery & QA:** Production deployments, human-in-the-loop validation, automated testing (Playwright), CI/CD pipelines

## Professional Experience

**FlowSpace.co** **London, UK (Remote)**

*Lead Full Stack Developer (Freelance)* *Mar 2024 - Present*

- Architected and deployed enterprise solutions (TypeScript, Node.js), engineering complex backend integrations with external CRM and booking systems to realize immediate business value for clients.
- Led the end-to-end migration of a live platform from a legacy stack to a modern cloud-native frontend, successfully scaling to support 4,500+ active users.
- Operated as a forward-deployed engineer, translating ambiguous customer requirements into scalable, production-ready code.
- Designed robust workflows and data pipelines to integrate advanced capabilities directly into production environments, ensuring high reliability and QA.

**Urlink** **Barcelona, Spain**

*Project Manager & Full Stack Developer (Freelance)* *Apr 2025 - Jul 2025*

- Delivered a customized full-stack platform leveraging modern databases and scalable logic to execute complex client-driven automations.
- Acted as the technical authority working directly with stakeholders, successfully translating complex business requirements into operational enterprise capabilities ahead of schedule.

**UltraStrategy.com** **France**

*Automation Engineer (Collaborator)* *Dec 2024 - May 2025*

- Designed and deployed robust data processing pipelines and automated extraction tools to serve a multi-profile user platform, integrating seamlessly within a modern enterprise ecosystem.

**Get2Germany.com** **Berlin, Germany**

*Lead Developer & Automation Specialist* *Jan 2024 - May 2024*

- Built external API integrations and automated tools utilizing modern backend logic to streamline discovery pipelines, directly improving enterprise workflows.

**Clubee.com** **Foetz, Luxembourg**

*Full-Stack Developer & QA (Freelance)* *Sep 2023 - Aug 2024*

- Implemented REST API integrations across the frontend, developed core domain tools, and enforced production-grade quality through rigorous unit testing and QA practices.

## Education

**Ca' Foscari University of Venice** **Venice, Italy**

*BA Philosophy, International Studies & Economics* *Oct 2020 - Jun 2024*

Minor in Entrepreneurship

## Certifications & Languages

**Work Authorization:** European Long Term Residence Permit (Italy). Remote/Contract ready.
**Languages:** English (Professional), Hindi (Native), Italian (Beginner).
