Motivation letter for Application for AI & Data Automation Sales Specialist – Venezia, Italy

Dear Hiring Manager,

I am writing to express my strong interest in the AI & Data Automation Sales Specialist position at Arsenalia. As an AI Solutions and Presales Specialist based directly in Venice, I have followed Arsenalia's growth with admiration. Arsenalia's commitment to delivering innovative enterprise solutions and driving meaningful digital transformation aligns directly with my consultative background in bridging client business objectives with cutting-edge AI, data platforms, and automated workflow solutions.

Over the past three years, I have worked across diverse European technology initiatives, engaging directly with commercial and technical stakeholders to translate high-level business problems into actionable technology proposals. At FlowSpace, I led client-facing technical scoping, product demonstrations, and GTM automations that directly expanded customer adoption, scaling the platform from 2,000 to over 4,500 active users. My responsibilities included managing client relationships throughout the onboarding lifecycle, identifying account expansion opportunities, and collaborating closely with engineering and presales teams to ensure flawless delivery.

In parallel, working with companies such as UltraStrategy, Get2Germany, and Clubee, I developed strong consultative skills in scoping data extraction pipelines, workflow automations using n8n and modern APIs, and structured integration architectures. This practical experience enables me to lead meaningful discussions with C-level and technical leaders alike, guiding them through how AI and process automation can deliver tangible ROI, eliminate operational bottlenecks, and modernize legacy processes.

Living in Venice for over five years as a graduate of Ca' Foscari University, I am located minutes away from Arsenalia's headquarters on Via delle Industrie. I hold a European Long-Term Residence Permit with full unrestricted legal work authorization in Italy and the EU (requiring no visa sponsorship), and possess fluent professional English skills suited for international enterprise clients. Furthermore, I am fully available and eager for business travel to client sites and industry conferences across Italy and Europe.

I welcome the opportunity to discuss how my consultative sales mindset and deep domain familiarity with AI and automation can contribute to driving revenue growth and expanding Arsenalia's client portfolio. Thank you for your time and consideration.

Sincerely,

Prabhavit Gupta

I hereby authorize the processing of my personal data contained in this document in compliance with the European General Data Protection Regulation (EU Regulation 2016/679) and Italian Legislative Decree 196/2003, as modified by Legislative Decree 101/2018, for the purposes of recruitment and selection.
