Prabhavit Gupta

Forward Deployed Engineer (FDE) | Autonomous AI Agents, Multi-Agent Systems & FastAPI

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice / Milan, Italy (EU Permanent Resident | Full-Cycle FDE | Immediate Availability)

Summary

Forward Deployed Engineer and Applied AI Systems Builder with 3 years of commercial experience delivering production autonomous agentic architectures, enterprise client integrations, and high-performance backend platforms. Bridges deep technical discovery with hands-on systems engineering (70% coding/deploying, 30% customer-facing architecture and alignment). Proven expertise orchestrating multi-agent workflows (LangGraph, CrewAI), conversational AI systems with structured tool-calling, FastAPI microservices, and enterprise RAG pipelines serving 4,500+ active users. Based in Venice with immediate availability and seamless travel access to Milan (1–2 days/week on-site).

Experience

FlowSpace.co • *Lead Forward Deployed Engineer & Agent Systems Architect (Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Acted as the primary technical bridge for enterprise customer deployments, conducting deep technical discovery, translating ambiguous operational workflows into multi-agent specifications, and driving go-live outcomes.
- Built, configured, and hardened autonomous multi-agent orchestration systems using Python, FastAPI, and LangGraph, managing state, structured tool execution, and dynamic context passing.
- Integrated conversational and agentic workflows with enterprise APIs, databases, and third-party tools, ensuring low latency (<1.8s) and 99.9% reliability in production.
- Developed modular, reusable integration playbooks, testing harnesses, and monitoring dashboards that reduced customer onboarding and deployment time by 40%.
- Implemented continuous evaluation frameworks (evals) and guardrails to audit agent decisions, track accuracy drift, and prevent conversational hallucinations.
- *Technologies: Python, FastAPI, LangGraph, LLMs, Tool Calling, RAG, Docker, AWS, PostgreSQL, React, Git*

Urlink • *Forward Deployed Software Engineer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain (remote)

- Collaborated directly with client teams to scope and build custom data transformation pipelines, automated API connectors, and semantic processing modules.
- Developed asynchronous FastAPI microservices and Pydantic validation schemas to handle high-throughput client data ingestion with zero data loss.
- Supported client integration testing, production deployments, and technical post-launch retrospectives.
- *Technologies: Python, FastAPI, PostgreSQL, Supabase, Docker, REST APIs, Git*

Independent Technical Consultant • *AI Solutions Engineer & Field Consultant*
Sep 2023 - Mar 2024 • Venice, Italy

- Provided end-to-end technical consulting and deployment of Generative AI assistants and document automation agents for Italian and European mid-market enterprises.
- Led client stakeholder workshops to identify automation opportunities, authored technical architecture blueprints, and built production-ready prototypes within tight timelines.
- Delivered operational runbooks, API documentation, and staff training to ensure long-term solution adoption.
- *Technologies: Python, OpenAI API, LangChain, Vector Databases, FastAPI, Linux, Git*

Tractionboard.co • *Full-Stack Automation Developer (Intern)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands (remote)

- Developed custom webhook integrations and automated ingestion workflows for SaaS analytics clients.
- *Technologies: Python, JavaScript, REST APIs, Git*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies and Economics (Minor in Entrepreneurship)*
Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft: Introduction to building AI agents • Microsoft Copilot Studio Agent Academy • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Location & Mobility:** Venice, Italy. Unrestricted EU Permanent Resident with immediate availability for Milan office presence (1–2 days/week).
- **Languages:** English (Fluent C1 professional), Italian (Working / Professional fluency), Spanish (Conversational), Hindi (Native).
- **Mentality:** Startup pace, high ownership, customer empathy, autonomous problem-solving from ambiguous requirements to production code.

Core Skills

- **Field & Client Engineering:** Full-Cycle FDE (Discovery → Architecture → Build → Deploy → Iterate), Stakeholder Management, Requirement Definition.
- **Agentic Systems & AI:** Multi-Agent Orchestration (LangGraph, CrewAI), Tool Calling, Conversational AI, State Management, Evaluation Frameworks (Evals), RAG.
- **Backend & Full-Stack:** Python 3.12, FastAPI, Asyncio, Pydantic, REST APIs, React (TypeScript), Webhooks, SQL (PostgreSQL).
- **Cloud & DevOps:** Docker, AWS, GCP, CI/CD, Observability & Logging, Git, Linux.
