Prabhavit Gupta

AI Engineer: LLM Agents, Multi-Agent Systems & Client Integrations

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

AI and automation engineer with about three years of experience developing LLM agents, multi-agent workflows, and client-facing integrations. At FlowSpace, I engineered customer support AI agents operating against live production data, built an LLM document ingestion pipeline (900+ listings processed from unstructured PDFs, web pages, and spreadsheets), and connected core booking APIs (OfficeRnD, Nexudus) via REST and webhooks. Experienced transforming complex business logic into scalable production features using TypeScript, Python, and Claude Code. Available immediately, unrestricted EU work authorization.

Experience

FlowSpace.co • *Lead Developer (Full-time, Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Built an AI listing bot with a human in the loop: it takes a brochure in any format (PDF, web page, photo or spreadsheet), drafts the full listing with an LLM, and pushes it to the backend after review. 900+ listings drafted.
- Streamlined customer support with AI agents that answer queries against live platform data and escalate to a person on low confidence.
- Integrated the OfficeRnD and Nexudus APIs for automated bookings, and built CRM lead-capture integration and GTM automations (sales funnel, lead enrichment, outbound) with n8n.
- Led the migration off a legacy stack to a coded Next.js and Laravel product: mapped the data model, chose the migration path per entity (API or CSV) and drove the cutover. Scaled the platform from 2,000 to 4,500+ users.
- Documented product and business logic with the developer team, coordinated between the internal team and an external agency, and built a commute-time calculator tool for companies.
- *Tools: Claude Code, n8n, Playwright, Postman, Laravel, TypeScript, Supabase, GitHub, Jira, ClickUp, Miro, Google Analytics, Microsoft Clarity*

Urlink • *Project Manager and AI-Assisted Developer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain

- Used AI to build the platform and its logic, implemented AI-made UIs, and built automations to client requirements.
- *Tools: GitHub, Netlify, Supabase, bolt.new*

UltraStrategy.com • *Automation Developer (Collaborator)*
Dec 2024 - May 2025 • France

- Built a CV-parsing tool with n8n and Eden AI (LLM data extraction) and a platform for different user profiles.
- *Tools: n8n, Eden AI*

Qomodo • *AI and Low-Code Developer (Collaborator)*
2024 - Jan 2025 • Milan, Italy

- Built a dashboard for companies to manage their branches and implemented Figma designs.

Get2Germany.com • *Lead Developer and Automation Specialist (Part-time)*
Jan 2024 - May 2024 • Berlin, Germany

- Integrated Google APIs for platform tracking, built the platform and optimized the database, and developed AI-based automation tools for finding courses, internships and jobs.
- *Tools: n8n, Figma, Trello, Google APIs*

Clubee.com • *Low-Code Developer and Quality Assurance (Full-time, Freelance)*
Sep 2023 - Aug 2024 • Foetz, Luxembourg

- Integrated the Clubee API across the whole frontend, ran unit testing and QA on new features, and built tools for domain integration, a shop and a federation dashboard.
- *Tools: Figma, GitHub, Postman, REST APIs*

Tractionboard.co • *Low-Code Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands

- Integrated ChatGPT/OpenAI and Sendgrid, built responsive designs, debugged features and implemented Google Ads 4.
- *Tools: Figma, Sendgrid, ChatGPT*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship*

Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** European Long Term Residence Permit (Italy), no sponsorship needed in the EU. Available immediately.
- **Languages:** Hindi (native), English (professional), Italian (beginner).

Core Skills

- **AI agents and LLM applications:** Multi-agent workflows, prompt engineering, context management, function calling, tool use, structured output, human-in-the-loop review, Claude and OpenAI APIs, Claude Code
- **Integration and APIs:** REST APIs, webhooks, JSON, OAuth, Postman API testing, third-party platform integrations (OfficeRnD, Nexudus, Sendgrid, Google APIs), n8n workflow automation
- **Full-stack and data engineering:** TypeScript, Python (working level), Node.js, Next.js, Laravel (PHP), PostgreSQL, Supabase, Git and GitHub, Playwright
- **Client delivery and architecture:** Requirements translation, rapid prototyping, production system architecture, user story mapping, cross-functional engineering collaboration
