+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

Engineer with about three years of experience working directly with customers and business teams on technical problems. At FlowSpace I worked with customers, the sales and operations team and an external agency, built support agents that answer against live platform data and escalate to a person on low confidence, and integrated the OfficeRnD and Nexudus APIs, CRM lead-capture integration and GTM automations (sales funnel, lead enrichment, outbound) with n8n. I read API documentation, trace data between systems, explain what I find in plain language, and write documentation others can reuse. Based in Venice, available immediately for remote work in Europe.

Experience

FlowSpace.co **Mar 2024 - Aug 2026**
Lead Developer (Full-time, Freelance) *London, UK (remote)*

- Built an AI listing bot with a human in the loop: it takes a brochure in any format (PDF, web page, photo or spreadsheet), drafts the full listing with an LLM, and pushes it to the backend after review. 900+ listings drafted.
- Streamlined customer support with AI agents that answer queries against live platform data and escalate to a person on low confidence.
- Integrated the OfficeRnD and Nexudus APIs for automated bookings, and built CRM lead-capture integration and GTM automations (sales funnel, lead enrichment, outbound) with n8n.
