Prabhavit Gupta

Software Engineer: Python Backend, REST APIs, Asynchronous Systems & Cloud Pipelines

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Remote Italy / Permesso di Soggiorno UE a Tempo Indeterminato)

Summary

Backend Software Engineer with 3 years of commercial production experience building reliable, scalable Python backend services, asynchronous worker pipelines, and RESTful microservices. Experienced in designing resilient API integrations, relational schema architectures in PostgreSQL, and automated background jobs with idempotency and exponential retries. Passionate about shipping clean, well-tested code (pytest), maintaining automated CI/CD pipelines via GitHub Actions, and containerized deployments with Docker on AWS and Linux. Based in Venice, Italy with permanent EU work authorization (immediate start, full remote ready).

Experience

FlowSpace.co • *Lead Developer & AI Systems Architect (Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Engineered production Python backend services and high-throughput data processing workflows serving 4,500+ active enterprise users with 99.9% uptime.
- Designed and implemented modular RESTful APIs and asynchronous background task pipelines handling concurrent file processing and webhook notifications.
- Structured and optimized PostgreSQL relational databases, designing complex indices, table partitioning, and performant SQL queries for transactional integrity.
- Implemented robust schema validation layers and deterministic fallback guards to ensure data consistency across external service integrations.
- Built asynchronous task workers and queuing mechanisms with idempotency controls and exponential backoffs to prevent data loss during traffic spikes.
- Automated continuous integration and deployment pipelines using Docker containerization, pytest suites, and GitHub Actions across AWS infrastructure.
- *Tools: Python 3, PostgreSQL, REST APIs, Docker, AWS, GitHub Actions, Linux, Redis*

Urlink • *Project Manager & Solutions Developer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain (remote)

- Developed automated Python data ingestion routines and entity transformation pipelines connecting external partner APIs with centralized PostgreSQL stores.
- Built automated schema validation rules and data integrity checks, ensuring reliable cross-system synchronization for enterprise accounts.
- Collaborated closely with product managers and engineering teammates to define interface specifications, SLA metrics, and operational monitoring alerts.
- *Tools: Python, REST APIs, PostgreSQL, Supabase, TypeScript, Linux*

Independent Technical Consultant • *AI Automation & Integration Developer*
Sep 2023 - Mar 2024 • Venice, Italy

- Developed custom Python automation workers, webhook listeners, and API microservices for automated document parsing and downstream system syncing.
- Implemented comprehensive unit and integration test suites (pytest) to catch regression errors and enforce API contracts.
- Authored detailed architectural specifications, error-handling runbooks, and developer documentation for cross-functional client teams.
- *Tools: Python, Webhooks, REST APIs, Supabase, Linux*

Tractionboard.co • *Low-Code Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands (remote)

- Integrated external REST API services and email notification workers, establishing automated validation checks across core onboarding flows.
- *Tools: Python, REST APIs, Sendgrid*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship*
Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft: Introduction to building AI agents • Microsoft Copilot Studio Agent Academy • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** Permesso di Soggiorno UE per Soggiornanti di Lungo Periodo (Italy), unrestricted work authorization in Italy and the EU (CCNL or Partita IVA). No visa sponsorship required.
- **Languages:** English (fluent / C1 professional), Hindi (native), Italian (working beginner).
- **Availability:** Available immediately for full-time remote roles in Italy.

Core Skills

- **Backend Engineering:** Python 3, Django, Flask, RESTful API design, microservices architecture, clean code principles, modular design patterns.
- **Asynchronous Systems & Queues:** Asynchronous programming (asyncio), task queues (Celery, Redis), webhook handlers, event-driven patterns.
- **Databases & Data Systems:** PostgreSQL, relational schema design, indexing, SQL query optimization, transaction management, data validation.
- **Cloud & DevOps:** Docker containerization, AWS cloud environments, Linux system administration, Git, GitHub Actions CI/CD.
- **Testing & Reliability:** Pytest, unit/integration testing, error logging, performance profiling, technical documentation, code reviews.
