Prabhavit Gupta

Conversational AI Engineer: Agent Builder, RAG Architectures & Cloud Integration

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Remote EU / Permesso di Soggiorno UE a Tempo Indeterminato)

Summary

Conversational AI Engineer with 3 years of commercial experience designing, developing, and deploying enterprise conversational agents, RAG workflows, and GenAI solutions. Deep hands-on expertise building virtual agents, dialog architectures, intent models, and tool-calling integrations across Google Cloud (Conversational Agents / Agent Builder, Dialogflow), AWS, and Azure. Proven ability to integrate conversational AI with third-party enterprise APIs and databases while establishing rigorous evaluation frameworks and observability. Unrestricted EU work authorization (Venice, Italy; available immediately for remote roles in Spain and Europe).

Experience

FlowSpace.co • *Lead Conversational AI & Agentic Systems Engineer (Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Engineered and deployed production-grade conversational AI agents and LLM-powered virtual assistants serving 4,500+ active enterprise users.
- Structured multi-turn dialog flows, intent routing, and fallback management leveraging GenAI, RAG pipelines, and external tool-calling APIs.
- Integrated conversational backends with cloud environments (Google Cloud, AWS), ensuring low latency and 99.9% system availability.
- Established automated dialog evaluation harnesses to continuously measure intent accuracy, groundedness, and response quality.
- Collaborated with product and engineering teams to translate user behavioral data into iterative conversation design improvements.
- *Tools: Python 3, Dialogflow, Agent Builder, RAG, REST APIs, Google Cloud, AWS, Docker, Git*

Urlink • *Integration & Solutions Developer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain (remote)

- Implemented automated data ingestion and conversational interface integrations connecting third-party partner systems to core databases.
- Designed reliable API connectors and schema validation layers to ensure robust data exchange between services.
- Handled end-to-end troubleshooting, root cause analysis (RCA), and production issue remediation across distributed microservices.
- *Tools: Python, PostgreSQL, REST APIs, Supabase, Git, Technical Scoping*

Independent Technical Consultant • *Conversational AI & Automation Developer*
Sep 2023 - Mar 2024 • Venice, Italy

- Scoped and delivered bespoke conversational chatbots and intelligent assistants for European startup and SME clients.
- Built custom webhook fulfillments, state management routines, and third-party CRM integrations.
- Authored technical architecture runbooks and interface documentation for seamless client handoff and ongoing operation.
- *Tools: Python, Dialogflow, REST APIs, OpenAI API, Linux, Git*

Tractionboard.co • *Backend Integration Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands (remote)

- Built automated webhook consumers and data integration workers in Python for SaaS client onboarding flows.
- *Tools: Python, REST APIs, Webhooks, Sendgrid*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship*
Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft: Introduction to building AI agents • Microsoft Copilot Studio Agent Academy • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** Permesso di Soggiorno UE per Soggiornanti di Lungo Periodo (Italy), unrestricted work authorization in Spain and across the EU (contrato indefinido / CCNL or Partita IVA).
- **Languages:** English (fluent / C1 professional), Spanish (conversational / working understanding), Italian (working), Hindi (native).
- **Availability:** Available immediately for 100% remote roles in Spain and Europe.

Core Skills

- **Conversational AI Platforms:** Google Dialogflow, Google Cloud Conversational Agents / Agent Builder, Virtual Agents, Microsoft Copilot Studio, Prompt Engineering.
- **Generative AI & Agent Architectures:** RAG Pipelines, Intent Recognition, Multi-turn Dialogue Management, LLM Orchestration, Tool Calling, Automated Quality Evals.
- **Software Engineering & Cloud:** Python 3, TypeScript, RESTful APIs, Webhooks, Google Cloud Platform (GCP), AWS, Docker, Git, CI/CD.
