Prabhavit Gupta

Senior Software Engineer – Frontend & AI: TypeScript, Next.js & MCP Workflows

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Resident in Italy / Freelance P.IVA / EU Permanent Resident)

Summary

Senior Software Engineer and Full-Stack Developer with 3 years of commercial production experience building high-performance web applications with TypeScript, React, Next.js, and Node.js, combined with deep practical expertise in AI-assisted workflows and Model Context Protocol (MCP) integrations. Proven track record executing zero-downtime frontend migrations, architecting responsive web applications, and augmenting development lifecycles with autonomous agents and automated test harnesses. Registered freelance professional (P.IVA) based in Venice, Italy with an EU Long-Term Residence Permit (permanent unrestricted Italian/EU work authorization, no sponsorship required); available immediately for full-time contract/freelance engagements (EUR 270–300/day).

Technical Expertise

- **Frontend & Web Technologies:** TypeScript, JavaScript (ES6+), React, Next.js (App Router, Server Components), Tailwind CSS, responsive design, performance optimization, state management.
- **AI Engineering & Agentic Tools:** Model Context Protocol (MCP) server creation and integration, Claude Code skills, agentic tool calling, LangChain, prompt engineering, automated code review workflows.
- **Backend & Microservices:** Node.js, Express, Python (FastAPI, asyncio), RESTful API design, PostgreSQL database schema design, Redis asynchronous queues.
- **Testing & Quality Assurance:** Automated integration and end-to-end testing with Playwright, unit testing with Jest, continuous regression testing in CI/CD pipelines.
- **Cloud & DevOps:** Docker containerization, Git version control, GitHub Actions, Linux administration, rate limiting, and observability.
- **Languages & Authorization:** English (C1 Professional, fluent), Hindi (Native), Italian (Conversational). Registered P.IVA in Italy / Permesso di Soggiorno UE a tempo indeterminato.

Experience

FlowSpace.co **Mar 2024 - Aug 2026**
Lead Developer & AI Systems Architect *London, UK (remote)*

- Led the frontend and full-stack architecture modernization to Next.js, React, and TypeScript with zero downtime, expanding active user capacity from 2,000 to 4,500+ enterprise users.
- Designed and integrated Model Context Protocol (MCP) servers and tool-calling interfaces connecting internal PostgreSQL data stores to LLM workflows.
- Adopted agentic coding workflows and custom evaluation suites to accelerate software delivery, automated testing, and defect diagnosis.
- Implemented high-concurrency Node.js and TypeScript API routes, integrating Redis asynchronous queues to handle real-time user query traffic.
- Established automated end-to-end and regression test harnesses using Playwright, ensuring 99.8% release reliability across CI/CD deployment pipelines.

Urlink **Apr 2025 - Jul 2025**
Project Manager & Solutions Developer (Freelance) *Barcelona, Spain (remote)*

- Developed scalable, responsive web applications and backend API microservices using TypeScript, Node.js, React, and Next.js for European clients.
- Integrated Stripe billing, Supabase real-time database synchronizations, and containerized Docker microservices.
- Optimized frontend rendering pipelines and API response times, achieving sub-second page loads and high Lighthouse accessibility scores.

Independent Technical Consultant **Aug 2023 - Feb 2024**
Full-Stack & AI Integration Developer *Venice, Italy*

- Delivered custom TypeScript web applications, API middleware, and automated LLM workflows for European SMBs under Italian P.IVA registration.
- Built automated data validation and webhook pipelines connecting external SaaS platforms to central PostgreSQL

databases.
- Authored technical documentation, deployment guides, and unit tests to ensure maintainable handoffs to client teams.

Education

Ca' Foscari University of Venice **2020 - 2024**
BA in Philosophy, International Studies and Economics *Venice, Italy*

- Rigorous training in formal logic, analytical problem solving, systems analysis, and macroeconomic decision models.
