Prabhavit Gupta

Agentic AI Engineer: Google ADK, Multi-Agent Frameworks, GCP & LLM Orchestration

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Remote EU / Partita IVA / Permesso di Soggiorno UE a Tempo Indeterminato)

Summary

Agentic AI Engineer with 3 years of commercial experience designing, building, and deploying autonomous multi-agent systems, tool-calling pipelines, and enterprise LLM integrations. Extensive hands-on background in agentic development frameworks (Google ADK, LangGraph, AutoGen, Model Context Protocol / MCP), Python, and Google Cloud Platform (GCP / Vertex AI / Gemini Enterprise). Specialized in architecting multi-step agent reasoning topologies (planning → tool invocation → reflection → execution), grounding models with structured knowledge retrieval, and implementing deterministic evaluation guardrails. Based in Venice, Italy with permanent EU work authorization and registered Italian Partita IVA, ready for immediate 100% remote B2B contract engagement.

Experience

FlowSpace.co • *Lead Developer & AI Systems Architect (Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Architected and deployed agentic AI workflows and autonomous multi-agent swarms serving 4,500+ active enterprise users with 99.9% availability.
- Built agent orchestration layers using Python and agentic tool-calling protocols, enabling dynamic API execution, schema validation, and multi-turn conversational memory.
- Deployed scalable cloud pipelines on GCP and AWS, integrating Google Gemini and Anthropic models with high-throughput streaming endpoints.
- Implemented deterministic agent validation harnesses, prompt regression suites, and latency optimizations reducing execution overhead by 35%.
- Designed secure enterprise connector layers bridging PostgreSQL database graphs with agent execution environments via containerized microservices.
- *Tools: Python, Google ADK, LangGraph, GCP, Vertex AI, Gemini, Docker, PostgreSQL, REST APIs, Git*

Urlink • *Project Manager & Solutions Developer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain (remote)

- Built automated data ingestion and agentic classification pipelines connecting distributed partner APIs with central relational databases.
- Developed modular Python connectors and structured schema verification guards for high-volume enterprise document processing.
- Collaborated with consultancy partners to deliver technical architecture specifications and milestone reviews for external stakeholders.
- *Tools: Python, GCP, PostgreSQL, REST APIs, Supabase, Git, Linux*

Independent Technical Consultant • *AI Automation & Integration Developer*
Sep 2023 - Mar 2024 • Venice, Italy

- Delivered custom autonomous agent systems, intelligent document processing pipelines, and API integrations for European SMBs.
- Built lightweight agent controllers in Python utilizing function calling, structured tool execution, and webhook-driven event handlers.
- Authored technical architecture runbooks and deployment guides for containerized cloud deployments.
- *Tools: Python, REST APIs, PostgreSQL, Docker, Linux, Git*

Tractionboard.co • *Low-Code Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands (remote)

- Built automated webhook consumers and data integration workers in Python for SaaS client onboarding flows.
- *Tools: Python, REST APIs, Sendgrid*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship*
Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft: Introduction to building AI agents • Microsoft Copilot Studio Agent Academy • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** Permesso di Soggiorno UE per Soggiornanti di Lungo Periodo (Italy), unrestricted work authorization across the EU. Partita IVA registered for B2B contracting. No visa sponsorship required.
- **Languages:** English (fluent / C1 professional), Hindi (native), Italian (working beginner).
- **Availability:** Available immediately for full-time remote B2B contracts across Europe.

Core Skills

- **Agentic Frameworks & Architecture:** Google ADK, LangGraph, AutoGen, Agent Swarms, Multi-Agent Orchestration, Model Context Protocol (MCP).
- **LLMs & Cloud Infrastructure:** Google Cloud Platform (GCP), Vertex AI, Gemini Enterprise, OpenAI API, Anthropic Claude, Cloud Run.
- **Engineering & Languages:** Python 3, TypeScript, JavaScript, RESTful APIs, Webhooks, JSON Schema Validation, Event-Driven Architecture.
- **Databases & Tooling:** PostgreSQL, Supabase, Redis, Docker Containerization, Git, GitHub Actions CI/CD, Linux.
- **AI Reliability & Governance:** Agent Tool Calling, Guardrails, Prompt Evaluation, Structured Output Verification, Error Recovery Logic.
