Prabhavit Gupta

Senior Software Engineer – AI/ML | Agentic Systems, Enterprise RAG, AWS Bedrock & Evals

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Unrestricted EU Permanent Resident | Full Remote / Munich Open)

Summary

Senior Software Engineer specializing in Generative AI, Large Language Models, and autonomous agentic systems with 3 years of commercial experience delivering production AI solutions. Hands-on expertise architecting multi-agent workflows (LangGraph, CrewAI, AutoGen) with state management, tool calling, and safety guardrails. Proven track record deploying end-to-end RAG pipelines across vector databases (OpenSearch, pgvector, Chroma) and implementing rigorous LLM evaluation frameworks (LangSmith, LLM-as-a-judge, hallucination mitigation). Strong background across Python, AWS Bedrock, cloud microservices, and MLOps. Unrestricted EU permanent resident, available immediately.

Experience

FlowSpace.co • *Lead AI/ML Software Engineer (Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Architected and operated production multi-agent workflows and tool-calling agents (LangGraph) serving 4,500+ active users with fault-tolerant routing and state management.
- Built end-to-end production RAG pipelines: document ingestion, semantic chunking, embeddings generation, vector search (pgvector, OpenSearch), and contextual answer synthesis.
- Designed automated LLM evaluation pipelines (LangSmith, PyTest) using LLM-as-a-judge patterns, benchmarking hallucination rates, toxicity guardrails, and latency (<1.8s).
- Integrated foundation models across AWS Bedrock, OpenAI, and Anthropic Claude with strict safety guardrails and prompt caching to optimize inference costs.
- Deployed containerized AI services to AWS (ECS, Lambda, S3, IAM, CloudWatch) with automated CI/CD pipelines and regression test suites.
- *Tools: Python, AWS Bedrock, LangGraph, LangChain, RAG, OpenSearch, pgvector, OpenAI, Anthropic Claude, Docker, AWS, Git*

Urlink • *AI Software Engineer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain (remote)

- Developed automated semantic processing and classification pipelines connecting external partner APIs with relational database backends.
- Designed structured prompt engineering templates, schema-constrained outputs (Pydantic), and error-handling routines for enterprise data ingestion.
- Partnered with global engineering teams to deliver observable, resilient AI features integrated into customer workflows.
- *Tools: Python, REST APIs, PostgreSQL, Supabase, LLMs, Embeddings, Docker, Git*

Independent Technical Consultant • *AI Solutions Consultant*
Sep 2023 - Mar 2024 • Venice, Italy

- Delivered custom NLP and Generative AI solutions for European business clients, automating document analysis and compliance workflows.
- Implemented classical NLP techniques (NER, text classification, intent recognition) alongside LLMs to balance latency and computational overhead.
- Authored technical architecture blueprints, evaluation frameworks, and deployment documentation for client handovers.
- *Tools: Python, OpenAI API, LangChain, Webhooks, REST APIs, Linux, Git*

Tractionboard.co • *Full-Stack Automation Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands (remote)

- Developed automated webhook consumers and backend data processing scripts for SaaS customer metrics.
- *Tools: Python, JavaScript, REST APIs, Git*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship*
Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft: Introduction to building AI agents • Microsoft Copilot Studio Agent Academy • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** Permesso di Soggiorno UE a Tempo Indeterminato (Italy), unrestricted work authorization across the EU. No visa sponsorship required.
- **Languages:** English (fluent / C1 professional), Italian (working intermediate), Hindi (native).
- **Availability:** Available immediately (0 days notice) for full-time remote or Munich/EU roles.

Core Skills

- **Agent Orchestration:** Multi-Agent Systems, LangGraph, LangChain, AutoGen, CrewAI, Tool Calling, State Management, Safety Guardrails.
- **RAG & Search Systems:** Semantic Chunking, Embeddings, Vector Databases (OpenSearch, pgvector, Chroma), Retrieval Tuning, Reranking.
- **AI Evaluations & MLOps:** LangSmith, LLM-as-a-Judge, Automated Scoring, Hallucination Mitigation, Drift Monitoring, CI/CD for AI.
- **Foundation Models & Cloud:** AWS Bedrock, OpenAI, Anthropic Claude, SageMaker, ECS, Lambda, S3, CloudWatch, Docker.
- **Software Engineering:** Python 3.12, FastAPI, Pydantic, Classical NLP (NER, classification), RESTful APIs, Git, Linux.
