Prabhavit Gupta

Artificial Intelligence Engineer: LLM Pipelines, Python Automation & Production Evals

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Remote EU / Permesso di Soggiorno UE a Tempo Indeterminato / Partita IVA)

Summary

Artificial Intelligence Engineer with 3 years of commercial production experience building LLM-integrated automation pipelines, evaluation harnesses, and robust Python backend services. Daily practitioner of AI-assisted engineering environments (Claude Code, GitHub Copilot, Codex) with deep expertise in LLM API orchestration (chat completions, structured JSON parsing, deterministic retries). Proven capability critically reviewing AI-generated code to prevent hallucinations, logic defects, and data leakage (PII/secrets sanitation). Experienced in embedding intelligent automation steps into CI/CD delivery pipelines. Based in Venice, Italy with permanent EU work authorization and Partita IVA ready for freelance contracting (immediate start, remote EU ready).

Experience

FlowSpace.co • *Lead Developer & AI Systems Architect (Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Engineered and deployed production Python pipeline services and LLM integration workflows supporting 4,500+ active enterprise users with 99.9% uptime.
- Built automated LLM API automation scripts executing structured chat completion calls, strict JSON Schema parsing, and fallback exception handling.
- Implemented continuous evaluation harnesses (evals) and sanity gates to catch hallucinations, schema mismatches, and regression errors in model outputs.
- Integrated automated code review and prompt sanitation steps into GitHub Actions CI/CD pipelines, enforcing strict zero-PII and credential masking boundaries.
- Leveraged AI-assisted development tools (Claude Code, Copilot) daily to accelerate refactoring, automated testing, and comprehensive test suite generation.
- Containerized automation workers using Docker and orchestrated database state management in PostgreSQL.
- *Tools: Python, LLM APIs, Claude Code, GitHub Actions, Docker, PostgreSQL, REST APIs, Linux*

Urlink • *Project Manager & Solutions Developer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain (remote)

- Developed automated data ingestion pipelines and entity extraction workers using Python and LLM function calling.
- Enforced strict schema validation (Pydantic / JSON Schema) to transform unstructured client data into clean relational records in PostgreSQL.
- Collaborated with cross-functional technical teams to define integration standards, prompt governance rules, and delivery milestones.
- *Tools: Python, REST APIs, PostgreSQL, Supabase, LLMs, Git*

Independent Technical Consultant • *AI Automation & Integration Developer*
Sep 2023 - Mar 2024 • Venice, Italy

- Delivered custom automation scripts, webhook listeners, and LLM-assisted document parsing microservices for European SMB clients.
- Designed automated verification suites evaluating AI output consistency across prompt variations and edge-case inputs.
- Authored technical architecture runbooks and integration guidelines for safe AI adoption in production environments.
- *Tools: Python, TypeScript, REST APIs, Supabase, Docker, Linux*

Tractionboard.co • *Low-Code Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands (remote)

- Integrated external REST API services and email notification workers, establishing automated validation checks across core onboarding flows.
- *Tools: Python, REST APIs, Sendgrid*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship*
Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft: Introduction to building AI agents • Microsoft Copilot Studio Agent Academy • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** Permesso di Soggiorno UE per Soggiornanti di Lungo Periodo (Italy), unrestricted work authorization in Italy and the EU (CCNL or Partita IVA freelance). No visa sponsorship required.
- **Languages:** English (fluent / C1 professional), Hindi (native), Italian (working beginner).
- **Availability:** Available immediately for full-time freelance contract roles in the EU.

Core Skills

- **AI Engineering & Tooling:** LLM APIs (OpenAI, Anthropic), Claude Code, GitHub Copilot, prompt engineering, structured JSON outputs, PII boundaries.
- **AI Evals & Code Review:** Automated eval harnesses, hallucination detection, schema conformance verification, critical code review of AI outputs.
- **Automation & Scripting:** Python 3, Bash shell scripting, REST APIs, webhook handlers, asynchronous pipeline workers, automated ETL routines.
- **CI/CD & Infrastructure:** GitHub Actions CI/CD pipelines, Docker containerization, Git version control, Linux environments, PostgreSQL.
- **Delivery Practices:** Freelance / contract delivery, technical documentation, zero-PII security standards, asynchronous collaboration.
