Prabhavit Gupta

AI Engineer: Autonomous Agent Systems, LLM Orchestration & Rigorous Evals

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (EU Permanent Resident, B2B Outside IR35 Ready)

Summary

Hands-on AI Engineer with 3 years of commercial experience designing, building, and benchmarking production autonomous agentic systems and tool-using LLM workflows. Proficient in TypeScript, Python 3, modern agent orchestration frameworks (LangGraph, LangChain), model routing, dynamic context management, and deterministic evaluation harnesses (LangSmith, Ragas, automated regression suites). Proven track record of developing multi-step execution pipelines where agents generate, validate, and execute working code with strict reliability guardrails. Available immediately for full-time remote contract engagements (Outside IR35 / B2B via Italian Partita IVA).

Experience

FlowSpace.co • *Lead AI Engineer & Systems Architect (Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Architected and deployed production autonomous multi-agent pipelines and code generation workflows supporting 4,500+ active enterprise users with 99.9% uptime.
- Built multi-step reasoning workflows using LangGraph and Python/TypeScript, orchestrating cyclical planning, execution, code syntax validation, and self-correction loops.
- Developed dynamic model routing layers balancing output quality, latency, and inference economics across Anthropic Claude, OpenAI GPT, and local open-weights models.
- Engineered high-precision RAG architectures featuring document parsing, hybrid semantic search, metadata filtering, and reranking to eliminate hallucinations.
- Built deterministic automated evaluation and regression testing suites (Playwright, Pytest, LangSmith) to benchmark task completion rates and prevent model drift.
- *Tools: TypeScript, Python 3, LangGraph, LangChain, Tool Calling, Model Routing, Evals, pgvector, Docker, Git*

Urlink • *AI Solutions Developer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain (remote)

- Developed automated document extraction and classification pipelines connecting external partner APIs with centralized database stores.
- Implemented semantic chunking and structured prompt validation layers in Python, ensuring data integrity across high-volume ingestion streams.
- Partnered with product teams and client stakeholders to translate functional requirements into scalable AI architecture specifications.
- *Tools: Python, TypeScript, REST APIs, PostgreSQL, Supabase, Git, Linux*

Independent Technical Consultant • *Autonomous AI Systems Developer*
Sep 2023 - Mar 2024 • Venice, Italy

- Built custom conversational agents, code generation tools, and workflow automation microservices for European startup clients.
- Implemented function calling, webhook listeners, and secure API integrations to connect LLMs with external execution sandboxes.
- Authored technical architecture runbooks, prompt engineering guidelines, and deployment specifications for client engineering teams.
- *Tools: Python, LangChain, OpenAI API, REST APIs, Linux, Git*

Tractionboard.co • *Low-Code Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands (remote)

- Built automated webhook consumers and data integration workers in Python for SaaS client onboarding flows.
- *Tools: Python, REST APIs, Sendgrid*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship*
Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft: Introduction to building AI agents • Microsoft Copilot Studio Agent Academy • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** EU permanent resident (Permesso di Soggiorno UE a Tempo Indeterminato); ready for international B2B contracting (Outside IR35) via registered Italian Partita IVA.
- **Languages:** English (fluent / C1 professional), Hindi (native), Italian (working beginner).
- **Availability:** Available immediately for full-time remote contracts.

Core Skills

- **Autonomous AI Agents & Graph Systems:** LangGraph, LangChain, Tool / Function Calling, Cyclical Reasoning Loops, Multi-Agent Orchestration, Structured Outputs.
- **AI Evals & Quality Assurance:** LLM Benchmarking, Evals-as-Judge, Automated Regression Testing, Failure Mode Analysis, Latency & Cost Optimization.
- **Model Routing & Context Engineering:** Intelligent Model Routing, Dynamic Context Windows, Retrieval-Augmented Generation (RAG), Semantic Caching.
- **Systems Engineering & Languages:** TypeScript, Python 3, Node.js, FastAPI, RESTful APIs, PostgreSQL, Docker, Git.
- **Frontier AI Models:** Anthropic Claude, OpenAI GPT, DeepSeek, Local / Open-Weights Models, Model Context Protocol (MCP).
