Prabhavit Gupta

Developer Relations Engineer: AI Coding Tools, Benchmarks, Technical Evals & Community

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Remote EU / Permesso di Soggiorno UE a Tempo Indeterminato)

Summary

Developer Relations Engineer and Software Developer with 3 years of commercial experience bridging advanced AI engineering workflows with developer communities. Daily practitioner of modern AI coding harnesses (Claude Code, Cursor, Codex, Model Context Protocol) with hands-on expertise in creating reproducible benchmarks, authoring high-signal technical documentation, building developer demos, and validating AI-generated code for safety and correctness. Combines rigorous analytical reasoning from a Bachelor's in Philosophy & Economics with practical full-stack software development (Python, TypeScript, Node.js, Next.js, PostgreSQL). Based in Venice, Italy with permanent EU work authorization (unrestricted EU remote ready).

Experience

FlowSpace.co • *Lead Developer & AI Systems Architect (Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Engineered production agentic tooling and custom execution harnesses supporting 4,500+ active enterprise users with 99.9% uptime.
- Designed technical benchmarks and automated evaluation suites (evals) to measure LLM code generation accuracy, hallucination rates, and tool execution latency.
- Authored extensive developer documentation, architectural decision records, interactive tutorials, and integration guides for client engineering teams.
- Leveraged AI coding tools (Claude Code, GitHub Copilot) daily to inspect unfamiliar codebases, scaffold test fixtures, and validate complex pull requests.
- Built functional developer demos and full-stack web applications using TypeScript, React/Next.js, Python, and PostgreSQL to showcase product capabilities.
- Gathered feedback from developer users, distilling pain points into concrete product specifications and feature pull requests.
- *Tools: Claude Code, Python, TypeScript, Next.js, MCP, LLM APIs, Docker, GitHub Actions, PostgreSQL*

Urlink • *Project Manager & Solutions Developer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain (remote)

- Developed automated integration pipelines and schema validation tooling connecting third-party API providers with internal databases.
- Produced developer-facing API reference specifications, onboarding guides, and code samples in Python and TypeScript.
- Partnered with client technical leads to explain complex data extraction mechanics and resolve technical friction in adoption.
- *Tools: TypeScript, Python, REST APIs, PostgreSQL, Supabase, Git*

Independent Technical Consultant • *AI Automation & Integration Developer*
Sep 2023 - Mar 2024 • Venice, Italy

- Created technical case studies, working prototypes, and step-by-step implementation tutorials for AI-powered workflow automation.
- Conducted reproducible technical evaluations comparing open-source LLM tooling and orchestration frameworks on real-world datasets.
- Advised engineering teams on prompt quality, deterministic fallback strategies, and automated testing practices for AI applications.
- *Tools: Python, TypeScript, REST APIs, Supabase, Docker, Linux*

Tractionboard.co • *Low-Code Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands (remote)

- Integrated external REST API services and email notification workers, establishing automated validation checks across core onboarding flows.
- *Tools: Python, REST APIs, Sendgrid*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship*
Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft: Introduction to building AI agents • Microsoft Copilot Studio Agent Academy • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** Permesso di Soggiorno UE per Soggiornanti di Lungo Periodo (Italy), unrestricted work authorization across the EU (CCNL or Partita IVA). No visa sponsorship required.
- **Languages:** English (fluent / C1 professional), Hindi (native), Italian (working beginner).
- **Availability:** Available immediately for full-time remote roles in Europe.

Core Skills

- **DevRel & Technical Content:** Technical writing, tutorials, API documentation, developer demos, case studies, community engagement.
- **AI Coding Tools & Ecosystem:** Claude Code, Cursor, GitHub Copilot, Model Context Protocol (MCP), agentic workflows, prompt engineering.
- **Benchmarking & Evals:** Benchmark design, output correctness validation, regression testing, hallucination analysis, metric tracking.
- **Full-Stack Engineering:** TypeScript, JavaScript, Python 3, Node.js, Next.js, React, RESTful APIs, Git, Docker, Linux.
- **Communication & Advocacy:** Explaining technical trade-offs, developer empathy, early-stage agility, asynchronous collaboration.
