Prabhavit Gupta

AI Developer / Agentic AI Engineer: LangGraph, Multi-Agent Systems, MCP & Clean Architecture

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Remote EU / Permesso di Soggiorno UE a Tempo Indeterminato)

Summary

AI Developer and Agentic AI Engineer with 3 years of commercial experience designing, building, and deploying production-grade Generative AI solutions and autonomous multi-agent systems. Hands-on expertise building orchestrators, stateful workflows, and tool-calling architectures using LangGraph, LangChain, and Model Context Protocol (MCP). Backed by disciplined backend software engineering practices: Hexagonal Architecture, Domain-Driven Design (DDD), robust REST APIs, event-driven pipelines, automated testing, and containerized deployment (Docker, CI/CD). Unrestricted EU work authorization (Permesso di Soggiorno UE a Tempo Indeterminato, Venice, Italy; available immediately for 100% remote roles across Spain/EU).

Experience

FlowSpace.co • *Lead AI Developer & Agentic Systems Engineer (Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Architected and deployed multi-agent generative AI workflows and orchestrators serving 4,500+ active users with 99.9% uptime.
- Implemented stateful multi-agent execution graphs using LangGraph, incorporating human-in-the-loop checkpoints, deterministic fallback routing, and structured state persistence.
- Built custom Model Context Protocol (MCP) servers and tool-calling interfaces connecting LLMs to enterprise databases and external REST APIs.
- Structured backend microservices following Hexagonal Architecture and DDD principles, decoupling AI agent business logic from infrastructure adapters.
- Containerized services with Docker, managed CI/CD pipelines via GitHub Actions, and established comprehensive automated testing and observability suites.
- *Tools: Python 3, LangGraph, LangChain, MCP, REST APIs, Microservices, Docker, Git, CI/CD*

Urlink • *Backend & Integration Developer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain (remote)

- Engineered automated document ingestion and structured data synchronization pipelines integrating partner APIs with core databases.
- Designed clean API contracts, database schemas, and data validation layers ensuring transactional integrity across enterprise services.
- Implemented modular event-handling workers and integration scripts in Python with rigorous automated regression tests.
- *Tools: Python, PostgreSQL, REST APIs, Supabase, Git, Event-Driven Integration*

Independent Technical Consultant • *AI Automation & Backend Developer*
Sep 2023 - Mar 2024 • Venice, Italy

- Designed and deployed customized GenAI automation microservices and intelligent chatbots for European enterprise and startup clients.
- Integrated LLM APIs with relational data stores, enterprise webhooks, and secure authentication boundaries.
- Developed modular backend components with strict error handling, observability logging, and maintainable software architecture.
- *Tools: Python, REST APIs, OpenAI API, Linux, Git, Docker*

Tractionboard.co • *Backend Integration Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands (remote)

- Developed backend webhook receivers and automated API pipelines in Python for customer onboarding workflows.
- *Tools: Python, REST APIs, Webhooks, Sendgrid*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship*
Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft: Introduction to building AI agents • Microsoft Copilot Studio Agent Academy • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** Permesso di Soggiorno UE per Soggiornanti di Lungo Periodo (Italy), unrestricted work authorization in Italy and across the EU (contrato indefinido / CCNL or Partita IVA).
- **Languages:** English (fluent / C1 professional), Spanish (conversational / working understanding), Italian (working), Hindi (native).
- **Availability:** Available immediately for 100% remote roles in Spain and Europe.

Core Skills

- **Agentic AI & LLM Orchestration:** LangGraph, LangChain, Multi-Agent Systems, Model Context Protocol (MCP), Tool Calling, State Management, Human-in-the-Loop, Evaluation Pipelines.
- **Backend Software Engineering:** Python 3, Hexagonal Architecture, Domain-Driven Design (DDD), Microservices, RESTful APIs, Event-Driven Architecture, Unit & Integration Testing.
- **Cloud, Data & Infrastructure:** Docker, Kubernetes, PostgreSQL, SQL, AWS, GCP, Git, GitHub Actions CI/CD, Linux.
