Prabhavit Gupta

Applied AI Engineer: Anthropic Claude, Agentic Systems, MCP & AWS Cloud Solutions

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Remote EU / Permesso di Soggiorno UE a Tempo Indeterminato)

Summary

Applied AI Engineer with 3 years of software and commercial engineering experience building production-grade Generative AI applications, RAG pipelines, and agentic workflows. Deep hands-on experience in the Anthropic Claude ecosystem (Claude Code, CLAUDE.md architecture, custom skills, hooks) and authoring Model Context Protocol (MCP) servers for agent tool integration. Proficient in spec-driven development, regression evals for non-deterministic systems, and deploying scalable microservices across AWS (Lambda, S3, ECS, API Gateway) using Python 3 and TypeScript. Unrestricted EU work authorization (Venice, Italy; available immediately for remote roles in Spain/EU).

Experience

FlowSpace.co • *Lead AI Engineer & Agentic Systems Developer (Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Embedded in a cross-functional pod delivering production agentic workflows and custom RAG applications serving 4,500+ active users.
- Authored and maintained Model Context Protocol (MCP) servers and tool-calling interfaces, connecting frontier LLMs to enterprise APIs and data stores.
- Implemented spec-driven agent development patterns, establishing automated eval datasets and scoring suites to track groundedness and latency trade-offs.
- Deployed containerized microservices to AWS cloud infrastructure (ECS, Lambda, S3), achieving 99.9% uptime SLAs through CI/CD automation.
- Collaborated with Senior AI Engineers and FDEs to translate complex business requirements into modular, maintainable Python and TypeScript code.
- *Tools: Python 3, TypeScript, Anthropic Claude, MCP, RAG, AWS (Lambda, S3, ECS), Docker, Git, CI/CD*

Urlink • *Solutions & Data Integration Developer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain (remote)

- Engineered automated document ingestion and structured data synchronization pipelines integrating partner APIs with relational databases.
- Built data validation routines, error handling, and schema checking layers to eliminate ingestion discrepancies.
- Collaborated remotely with product stakeholders across Spain and Europe to deliver reliable backend automation.
- *Tools: Python, PostgreSQL, REST APIs, Supabase, Git, Technical Scoping*

Independent Technical Consultant • *AI Automation & Integration Developer*
Sep 2023 - Mar 2024 • Venice, Italy

- Scoped and delivered bespoke Generative AI solutions and LLM-powered microservices for European startups and SMBs.
- Built API webhooks, retrieval mechanisms, and automated test harnesses to validate multi-step agent execution.
- Documented system architecture, setup procedures, and operational runbooks for seamless client handoff.
- *Tools: Python, REST APIs, OpenAI & Anthropic APIs, Linux, Git, Docker*

Tractionboard.co • *Backend Integration Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands (remote)

- Developed backend webhook consumers and data integration workers in Python for SaaS client onboarding flows.
- *Tools: Python, REST APIs, Webhooks, Sendgrid*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship*
Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft: Introduction to building AI agents • Microsoft Copilot Studio Agent Academy • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** Permesso di Soggiorno UE per Soggiornanti di Lungo Periodo (Italy), unrestricted work authorization across the EU (contrato indefinido / CCNL or Partita IVA / autónomo).
- **Languages:** English (fluent / C1 professional), Spanish (conversational / working understanding), Italian (working), Hindi (native).

- **Availability:** Available immediately for 100% remote roles in Spain and Europe.

Core Skills

- **Frontier AI & Agent Architectures:** Anthropic Claude API, Claude Code, CLAUDE.md Workflows, Model Context Protocol (MCP), Agent Tool Calling, RAG Pipelines, Vector DBs, Prompt Engineering.
- **Evaluation & Monitoring:** Automated LLM Evals, Groundedness & Faithfulness Scoring, Non-deterministic System Testing, Cost/Latency Optimization.
- **Software & Cloud Engineering:** Python 3, TypeScript, JavaScript (Node.js), REST APIs, AWS (Lambda, S3, ECS, CloudWatch), Docker, Git, GitHub Actions CI/CD, Linux.
