Prabhavit Gupta

AI Solutions Engineer: LLM Applications, MCP Integrations & Internal Automation

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

AI Solutions Engineer and Automation Developer with 3 years of hands-on experience designing and deploying production LLM tools, agent architectures, and autonomous internal automations. Daily power-user of AI coding agents (Claude Code) as a default operating mode to rapidly take solutions from problem definition to live adoption in days. Proven track record building ad-hoc document processing pipelines, RAG systems, structured data extraction, and deep API/MCP connectors across CRM, databases, and operational business platforms. Highly autonomous builder who collaborates directly with cross-functional business teams (Finance, Operations, Support, Legal) to analyze real workflows and ship practical, user-adopted tools. Based in Venice, Italy with an EU Long Term Residence Permit (unrestricted EU work authorization without sponsorship). Immediately available.

Technical Expertise

- **AI & LLM Engineering:** Production LLM toolchains (Claude API, OpenAI), Prompt engineering, Structured JSON outputs, Function calling, Tool use, RAG, Model error handling & evaluation, Context window management.
- **Autonomous Development & AI Tooling:** Daily default workflow using Claude Code and modern AI coding agents for high-speed end-to-end prototyping, implementation, and refactoring.
- **Integrations & Automation:** REST APIs, Webhook architectures, MCP (Model Context Protocol) connectors, n8n workflow orchestration, Zapier/Make, Database syncs (PostgreSQL, Supabase), Rate-limiting & retries.
- **Core Languages & Stack:** TypeScript, JavaScript, Python, SQL, Next.js, Node.js, Git version control, Postman.
- **Business Workflow Automation:** Rapid translation of cross-functional team processes (Operations, HR, Finance, Support) into automated tools, user training, and direct handoff to production.
- **Languages & Work Authorization:** Hindi (Native), English (C1 Professional), Italian (Beginner). EU Long Term Residence Permit (Permanent unrestricted EU work authorization; no visa sponsorship required).

Experience

FlowSpace.co **Mar 2024 - Aug 2026**
Lead Developer (Full-time, Freelance) *London, UK (remote)*

- Built and deployed custom LLM-powered internal tools and automated pipelines that processed unstructured partner data into structured formats, scaling platform listings to 900+ active records.
- Integrated core operational platforms (OfficeRnD, Nexudus, CRM) via bi-directional REST APIs and webhooks, automating lead ingestion, scheduling, and customer data reconciliation.
- Engineered AI support and triage agents using Claude API and structured output schemas, reducing manual ticket resolution time for customer operations teams.
- Spearheaded migration of the core platform from a legacy stack to a modern Next.js and Laravel architecture, scaling the active user base from 2,000 to 4,500+ users.
- Leveraged Claude Code daily to rapidly prototype, iterate, and deliver production-ready features in days rather than multi-week sprints.
- Designed and executed comprehensive automated test suites using Playwright, verifying continuous integration stability and preventing regressions across business workflows.
- Partnered directly with non-technical business teams to analyze manual bottlenecks, author comprehensive operational documentation, and guide end-user adoption.

Urlink **Apr 2025 - Jul 2025**
Project Manager & AI Assisted Developer (Freelance) *Barcelona, Spain (remote)*

- Delivered web application integration features and internal tools by scoping business logic, defining API schemas, and implementing automated data transformation services.
- Built automated pipelines connecting external service APIs with relational databases, ensuring strict schema validation and reliable error handling.
- Configured CI/CD workflows and automated quality checks, accelerating release velocity while maintaining zero downtime.

Independent Technical Consultant **Aug 2023 - Feb 2024**
AI Solutions & Automation Engineer *Venice, Italy*

- Designed and shipped bespoke AI automations, web extraction tools, and API connectors for European SME clients using Python, TypeScript, and Playwright.
- Audited operational workflows across sales, finance, and support to identify high-leverage automation opportunities, delivering practical tools adopted directly by non-technical staff.
- Built webhook listeners and automated data reconciliation scripts that eliminated manual data entry across disparate SaaS tools.

Education

Ca' Foscari University of Venice **2020 - 2024**
BA in Philosophy, International Studies and Economics *Venice, Italy*

- Rigorous training in formal logic, analytical problem solving, systems analysis, and macroeconomic decision models.
