Prabhavit Gupta

Full Stack Engineer: React, Next.js, TypeScript & Scalable Platforms

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Open to Relocate to Lisbon, Portugal)

Summary

Full Stack Software Engineer and Lead Developer with 3 years of hands-on production experience architecting, building, and operating high-velocity web applications, partner integration pipelines, and consumer features across European tech platforms. Proven track record taking features from concept to production deployment—scaling user-facing applications from 2,000 to 4,500+ users, building responsive React and Next.js interfaces, designing resilient backend APIs, and heavily leveraging modern AI tooling (Claude Code, Cursor) to ship reliable code at high velocity. Experienced working in rapid iteration cycles and maintaining production stability with Playwright end-to-end regression suites. Holder of EU Long-Term Residence Permit (permanent unrestricted EU work authorization without visa sponsorship); based in Venice, Italy, immediately available, and open to relocate to Lisbon, Portugal.

Technical Expertise

- **Full Stack Web Development:** TypeScript, JavaScript, React, Next.js, Node.js, PHP, responsive UI engineering, state management, component architecture.
- **Backend Systems & APIs:** RESTful API design, webhook synchronization, partner API integrations (OfficeRnD, Nexudus), auth flows, relational data mapping.
- **Data Modeling & Datastores:** PostgreSQL, MySQL, Supabase, Prisma, schema design and migrations, structured data ingestion pipelines, Redis caching.
- **Testing, Quality & DevOps:** End-to-end regression testing with Playwright, Git, CI/CD automated deployment pipelines, logging and trace observability.
- **AI-Assisted Engineering:** High-velocity implementation using Claude Code and LLM-assisted workflows, structured outputs, prompt engineering, agent orchestration.
- **Languages & Authorization:** English (C1 Professional), Hindi (Native), Italian (Beginner). EU Long-Term Residence Permit (permanent unrestricted EU work authorization, no visa sponsorship required).

Experience

FlowSpace.co **Mar 2024 - Aug 2026**
Lead Developer & AI Systems Architect *London, UK (remote)*

- Architected, deployed, and maintained the production AI customer support agent runtime on a live platform serving 4,500+ active users, automating customer inquiries across pricing, venue inventory, and bookings.
- Grounded agent responses against live operational databases and partner APIs (OfficeRnD, Nexudus) using strict JSON tool schemas and fallback escalation logic that routed complex inquiries to staff.
- Built automated evaluation loops analyzing real customer conversation transcripts rather than synthetic benchmarks, systematically detecting failure patterns and eliminating hallucinated answers.
- Profiled latency and API token consumption across model versions, optimizing prompt templates and context window utilization to reduce inference costs while maintaining rapid response times.
- Deployed automated end-to-end regression test suites using Playwright, verifying API contracts and continuous deployment stability across end-to-end customer booking flows.
- Spearheaded platform migration from legacy architecture to a modern Next.js and backend service stack, supporting platform growth from 2,000 to 4,500+ users without operational degradation.
- Built automated data ingestion and transformation pipelines parsing and validating unstructured partner listings, expanding platform inventory to over 900 locations.

Urlink **Apr 2025 - Jul 2025**
Project Manager & Solutions Developer (Freelance) *Barcelona, Spain (remote)*

- Architected core web application backend workflows, defining clear API contracts, relational schemas, and data transformation logic for client-facing features.
- Implemented automated validation and synchronization pipelines connecting third-party services with PostgreSQL, preventing malformed inputs and ensuring relational data integrity.
- Integrated automated CI/CD workflows and regression checks to accelerate feature delivery across distributed development environments.

Independent Technical Consultant **Aug 2023 - Feb 2024**
AI Solutions & Automation Engineer *Venice, Italy*

- Designed and delivered bespoke AI automation workflows, web extraction engines, and API integrations for European SME clients using Python, TypeScript, and Playwright.
- Translated manual, fragmented business operations into automated software solutions with structured logging, retry queues, and reliable recovery logic.
- Engineered webhook listeners and real-time synchronization pipelines across CRM platforms, operational tools, and relational datastores.

Education

Ca' Foscari University of Venice **2020 - 2024**
BA in Philosophy, International Studies and Economics *Venice, Italy*

- Rigorous grounding in formal logic, analytical problem solving, systems analysis, and macroeconomic decision models.
