Prabhavit Gupta

Forward Deployed Engineer: Enterprise AI Solutions, Cloud Integrations & Production Delivery

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Remote EU / Permesso di Soggiorno UE a Tempo Indeterminato)

Summary

Forward Deployed Engineer with 3 years of commercial experience delivering mission-critical AI solutions, bespoke enterprise integrations, and high-performance software at the intersection of engineering and client consulting. Expert in leading technical discovery sessions, translating complex business friction into robust architectures, and deploying production-grade applications that drive measurable operational outcomes. Proficient in Python 3, TypeScript, RESTful API design, microservices, and multi-cloud environments (AWS, GCP, Azure). Experienced in embedding directly with distributed stakeholders, managing end-to-end technical delivery from proof-of-concept to scaled rollout. Based in Venice, Italy with permanent EU work authorization (immediate remote availability).

Experience

FlowSpace.co • *Forward Deployed & Lead AI Engineer (Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Led forward deployed technical discovery and bespoke system delivery for enterprise clients, designing AI agent architectures serving 4,500+ active users.
- Embedded directly with client technical teams to map business requirements into resilient production APIs, automated ingestion pipelines, and user interfaces.
- Built scalable backend integration services in Python and TypeScript, connecting legacy customer data systems with modern LLM reasoning workflows.
- Deployed containerized applications across AWS and GCP cloud infrastructure, establishing automated CI/CD pipelines and 99.9% uptime SLAs.
- Acted as the primary technical advisor during implementation, resolving complex deployment bottlenecks and driving customer adoption.
- *Tools: Python 3, TypeScript, REST APIs, AWS, GCP, Docker, PostgreSQL, Agent Architectures, Git*

Urlink • *Project Manager & Solutions Developer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain (remote)

- Owned client solutions architecture and automated ETL pipelines connecting disparate partner data endpoints with central relational stores.
- Ran technical discovery workshops, drafted interface specifications, and built custom data validation layers in Python.
- Coordinated cross-functional delivery between client leadership, external vendors, and internal developers to meet strict project milestones.
- *Tools: Python, PostgreSQL, REST APIs, Supabase, Git, Technical Discovery*

Independent Technical Consultant • *AI Automation & Integration Developer*
Sep 2023 - Mar 2024 • Venice, Italy

- Consulted with European SMB and enterprise clients to scope, architect, and deploy custom AI automation microservices and web tools.
- Built custom API connectors and webhook integrations, reducing operational processing time by up to 60% for client workflows.
- Authored technical architecture runbooks, system documentation, and led onboarding sessions for client engineering teams.
- *Tools: Python, REST APIs, Cloud Integrations, Linux, Git*

Tractionboard.co • *Low-Code Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands (remote)

- Built automated webhook consumers and data integration workers in Python for SaaS client onboarding flows.
- *Tools: Python, REST APIs, Sendgrid*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship*
Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft: Introduction to building AI agents • Microsoft Copilot Studio Agent Academy • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** Permesso di Soggiorno UE per Soggiornanti di Lungo Periodo (Italy), unrestricted work authorization in Italy and across the EU (CCNL or Partita IVA).
- **Languages:** English (fluent / C1 professional), Hindi (native), Italian (working beginner).
- **Availability:** Available immediately for full-time remote roles in Europe / EMEA.

Core Skills

- **Forward Deployed Engineering:** Technical Discovery, Customer-Facing Architecture, POC-to-Production Delivery, Solution Design, Stakeholder Management.
- **Enterprise Integrations & APIs:** RESTful API Design, Webhooks, Data Ingestion Pipelines, Microservices Architecture, Schema Validation.
- **AI & LLM Systems:** Applied AI Engineering, Multi-Agent Workflows, RAG Architectures, Tool/Function Calling, Prompt Engineering.
- **Languages & Cloud Platforms:** Python 3, TypeScript, JavaScript, SQL, AWS, GCP, Azure, Docker, Linux, Git, CI/CD.
- **Consulting & Ownership:** End-to-End Delivery, Cross-Functional Leadership, Technical Documentation, Customer Enablement.
