# Prabhavit Gupta

+39-351-610-7807 prabhavitg@gmail.com Linkedin Venice, Italy

## Career Summary

- Automation and software integration engineer with hands-on experience in sensor data acquisition, telemetry pipelines, and Linux runtime environments.
- Proficient in Python scripting, API protocols, containerized testing (Docker), and automated quality validation workflows.
- Experienced in hardware device interfacing, technical documentation, and rigorous root-cause troubleshooting for production deployments.

## Technical Skills

- **Automation & Systems** – Python, C++ Fundamentals, Shell Scripting (Bash), Linux OS, Git Flow, CI/CD, Containerization (Docker)
- **Sensor Integration & Telemetry** – Hardware Interfacing, Device Telemetry, REST APIs, Webhooks, Data Pipeline Processing
- **AI & Intelligent Workflows** – Edge AI Integration, Structured Data Extraction, Computer Vision API Integration, Model Telemetry
- **Testing & Quality Assurance** – Automated Regression Testing, Unit Testing, QA Validation, Root Cause Analysis, Runbook Authoring

## Visa & Language

- **Language** – English (Fluent / Professional), Italian (Conversational / Intermediate), Hindi (Native)
- **Work Authorization** – European Long Term Residence Permit (Italy, no sponsorship needed). Available immediately.

## Professional Experience

**FlowSpace.co** *Systems Automation & Software Developer (Full time, Freelance)*
*London, UK / Remote* *Mar 2024 – Ongoing*

- **Product Responsibilities:**
  - Supported platform scaling to over 4,500 active users through continuous integration cycles and system performance monitoring.
  - Oversaw platform migration off a legacy stack to a modern Next.js and backend service architecture, guaranteeing zero downtime.
  - Documented operational system logic, service dependencies, and error handling mechanisms across development teams.
  - Integrated AI agent services to automate diagnostic ticket sorting and routine operational queries.
- *Tools: Python, Docker, Linux, Git, Jira, Postman*
- **Technical Responsibilities:**
  - Developed Python utilities and n8n pipelines for automated data extraction, parsing, and structured database synchronization.
  - Configured webhook endpoints and REST interfaces to synchronize distributed event streams across external service providers.
  - Performed end-to-end integration validation and automated smoke testing across staging and production environments.
  - *Tools: Python, Bash, REST APIs, n8n, Git, Postman, Docker*

**Urlink** *Systems Automation Engineer (Freelance)*
*Barcelona, Spain* *Apr 2025 – Jul 2025*

- Handled technical commissioning and integration of networked hardware devices with centralized telemetry backends.
- Diagnosed interface communication timeouts and protocol errors during acceptance testing runs.
- Authored technical integration manuals and system hardware topology documentation for field teams.
- *Tools: GitHub, Netlify, Supabase, REST APIs, Hardware Telemetry*

**UltraStrategy.com** *Automation Developer (Collaborator)*
*France / Remote* *Dec 2024 – May 2025*

- Built automated data ingestion and document parsing routines utilizing n8n workflows and AI APIs.
- Structured complex incoming telemetry and text into normalized database entities.
- *Tools: n8n, Eden AI, REST APIs, JSON*

**Qomodo** *Integration Developer (Collaborator)*
*Milan, Italy* *2024 – Jan 2025*

- Developed real-time telemetry dashboards for commercial clients to monitor active device operations across branches.
- Integrated third-party communication APIs to maintain synchronous telemetry feeds.
- *Tools: JavaScript, Figma, REST APIs*

**Get2Germany.com** *Developer and Automation Specialist (Part time)*
*Berlin, Germany* *Jan 2024 – May 2024*

- Integrated Google APIs and search services to process external program catalog information.
- Designed automated batch scripts and database optimization queries in n8n.
- *Tools: n8n, Google APIs, Database Optimization*

**Clubee.com** *Developer and Quality Assurance (Full time, Freelance)*
*Foetz, Luxembourg* *Sep 2023 – Aug 2024*

- Executed comprehensive automated QA test suites, regression validations, and integration tests for software releases.
- Investigated defect logs, isolated edge case failures, and verified patches with core engineers.
- *Tools: JavaScript, GitHub, Postman, Figma*

**Tractionboard.co** *Developer (Internship)*
*Utrecht, Netherlands* *Aug 2023 – Oct 2023*

- Integrated OpenAI API and Sendgrid communication channels for automated messaging routines.
- Tested responsive client interfaces and resolved software defects.
- *Tools: OpenAI API, Sendgrid, JavaScript, Figma*

## Education

**Ca' Foscari University of Venice** *Bachelor's in Philosophy, International Studies & Economics with Minor in Entrepreneurship*
*Venice, Italy* *Oct 2020 – Jun 2024*

## Certifications

- Microsoft Copilot Studio Agent Academy
- Microsoft – Introduction to building AI agents
- Microsoft Power Automate
- Tray.AI Build Practitioner – September 2024
- Tray.AI Build Foundations
