Prabhavit Gupta

AI Engineer: Agentic Systems, Custom Harnesses, Production Evals & Full-Stack Delivery

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Remote EU / Permesso di Soggiorno UE a Tempo Indeterminato)

Summary

AI Engineer with 3 years of commercial production experience architecting end-to-end agentic systems, custom execution harnesses, and enterprise AI transformation pipelines. Specialized in designing tool-augmented LLM architectures (MCP, function calling), deterministic evaluation harnesses, and full-stack applications (TypeScript, Next.js, Node.js, Python, PostgreSQL). Proven track record shipping reliable production systems with automated guardrails, latency/cost profiling, and structured fallback recovery. Experienced in bridging modern generative AI workflows with complex enterprise databases. Based in Venice, Italy with permanent EU work authorization (unrestricted EU remote ready).

Experience

FlowSpace.co • *Lead Developer & AI Systems Architect (Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Engineered and deployed production multi-agent systems and custom LLM harnesses supporting 4,500+ active enterprise users with 99.9% uptime.
- Built custom agent orchestration runtime featuring tool routing (MCP), schema-constrained outputs, and deterministic retry mechanisms.
- Implemented automated evaluation pipelines (evals) to measure hallucination rates, token cost drift, and tool execution accuracy against ground truth benchmarks.
- Developed full-stack web interfaces and backend services using TypeScript, React/Next.js, Python, and PostgreSQL to expose agent workflows to non-technical operators.
- Architected observability and tracing layers capturing model inputs, tool call latencies, and execution graphs for production error diagnosis.
- Containerized microservices using Docker and automated CI/CD validation suites via GitHub Actions.
- *Tools: Python, TypeScript, Next.js, Node.js, MCP, LLM APIs, PostgreSQL, Docker, GitHub Actions*

Urlink • *Project Manager & Solutions Developer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain (remote)

- Built automated data ingestion and entity extraction pipelines using LLM function calling and Python services connected to central PostgreSQL databases.
- Designed strict validation schemas (JSON Schema / Pydantic) ensuring 100% deterministic entity extraction from unstructured enterprise partner records.
- Collaborated with product leaders to establish acceptance criteria, accuracy evaluation thresholds, and operational escalation protocols.
- *Tools: Python, TypeScript, REST APIs, PostgreSQL, Supabase, LLMs*

Independent Technical Consultant • *AI Automation & Integration Developer*
Sep 2023 - Mar 2024 • Venice, Italy

- Delivered tailored agentic automation tools, webhook integrations, and bespoke document parsing microservices for European SMBs.
- Developed custom harness scripts testing multi-step agent decisions against edge-case scenario suites before client deployment.
- Authored technical architecture runbooks and integration specifications for distributed engineering teams.
- *Tools: Python, TypeScript, REST APIs, Supabase, Docker, Linux*

Tractionboard.co • *Low-Code Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands (remote)

- Integrated external REST API services and email notification workers, establishing automated validation checks across core onboarding flows.
- *Tools: Python, REST APIs, Sendgrid*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship*
Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft: Introduction to building AI agents • Microsoft Copilot Studio Agent Academy • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** Permesso di Soggiorno UE per Soggiornanti di Lungo Periodo (Italy), unrestricted work authorization across the EU (CCNL or Partita IVA). No visa sponsorship required.
- **Languages:** English (fluent / C1 professional), Hindi (native), Italian (working beginner).
- **Availability:** Available immediately for full-time remote roles in Germany / EU.

Core Skills

- **Agentic AI Systems:** Custom execution harnesses, tool calling (MCP / Model Context Protocol), multi-agent workflows, schema enforcement, prompt engineering.
- **AI Reliability & Evals:** Benchmark datasets, automated regression test suites, token/latency monitoring, fallback routing, hallucination mitigation.
- **Full-Stack Engineering:** TypeScript, JavaScript, Python 3, Node.js, Next.js, React, HTML5/CSS3, RESTful APIs, asynchronous services.
- **Databases & Infrastructure:** PostgreSQL, relational schema design, SQL optimization, Docker containerization, Git, GitHub Actions, Linux.
- **Engineering Delivery:** End-to-end product ownership, system architecture, technical documentation, agile iteration, asynchronous collaboration.
