Prabhavit Gupta

Test Automation Developer: Playwright, TypeScript, API Contract & E2E Testing

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy (Resident in Italy / Permesso di Soggiorno UE a Tempo Indeterminato)

Summary

Software and Test Automation Developer with 3 years of commercial production experience designing, implementing, and maintaining automated testing frameworks, end-to-end regression suites, and API contract verification systems. Practical expertise utilizing Playwright, TypeScript, Python, Postman, and CI/CD pipelines to guarantee software quality, isolate regressions, and ensure system reliability across continuous delivery lifecycles. Resident in Venice, Italy with an EU Long-Term Residence Permit (permanent unrestricted Italian and EU work authorization, no sponsorship required). Fluent English (C1 Professional), conversational Italian; available immediately for full-time remote or hybrid positions.

Technical Expertise

- **Test Automation Frameworks:** Playwright (E2E, API testing, visual regression, trace recording), Jest, Selenium WebDriver, automated test suite design, page object models (POM), test fixture management.
- **API Testing & Quality Engineering:** Postman, REST API contract testing, JSON schema validation, HTTP mock servers, edge-case boundary verification, stress and latency profiling.
- **Programming Languages:** TypeScript, JavaScript (Node.js, ES6+), Python3 (pytest, asyncio, requests), SQL (PostgreSQL), HTML5, CSS selectors, XPath locator strategies.
- **CI/CD & DevOps Integration:** GitHub Actions, automated test runner integration, regression blocking gates, Docker containerization, Git version control.
- **Methodologies & Collaboration:** Agile/Scrum software development, defect tracking, test planning, documentation, root cause analysis, cross-functional collaboration.
- **Languages & Authorization:** Italian (Parlato/Conversational), English (C1 Professional, fluent), Hindi (Native). Resident in Italy / Permesso di Soggiorno UE a tempo indeterminato.

Experience

FlowSpace.co **Mar 2024 - Aug 2026**
Lead Developer & Test Automation Engineer *London, UK (remote)*

- Designed, built, and operated the automated end-to-end and regression testing infrastructure using Playwright and TypeScript for a platform serving 4,500+ active enterprise users.
- Automated critical user flows including catalog ingestion, user authentication, checkout workflows, and multi-turn AI interactions, preventing regressions in production.
- Integrated automated test suites into CI/CD pipelines (GitHub Actions), running parallel headless browser tests and blocking failing PRs prior to deployment.
- Authored automated API contract tests validating backend endpoints, payload schemas, and response status codes against production specifications.
- Reduced manual QA verification time by 80% while achieving 99.8% production reliability across continuous weekly deployments.

Urlink **Apr 2025 - Jul 2025**
Project Manager & Solutions Developer (Freelance) *Barcelona, Spain (remote)*

- Led automated validation and integration testing for custom client web applications and data processing pipelines.
- Configured Postman collections and automated test scripts to verify REST API integrations with third-party payment and database systems.
- Designed test matrices covering responsive UI rendering, cross-browser compatibility, and edge-case form validation.

Independent Technical Consultant **Aug 2023 - Feb 2024**
Software & Automation Developer *Venice, Italy*

- Implemented automated testing and validation scripts for client web applications and ETL data extraction workflows using Python and Postman.
- Developed automated sanity suites verifying database integrity and webhook event delivery across client integration endpoints.

- Documented test strategies, execution reports, and defect logs for client development teams.

Education

Ca' Foscari University of Venice **2020 - 2024**
BA in Philosophy, International Studies and Economics *Venice, Italy*

- Rigorous training in formal logic, analytical problem solving, systems analysis, and macroeconomic decision models.
