Prabhavit Gupta

Agentic AI Engineer, MCP Integrations & Production LLM Systems

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

Agentic AI engineer who builds, ships, and maintains production agent systems with MCP-based integrations. At FlowSpace I built the company's core AI pipeline: autonomous agents that ingest documents in any format (PDF, web page, photo, spreadsheet), run multi-stage LLM extraction with Claude and OpenAI using tool-use orchestration, validate outputs with confidence scoring and automated evals, and push clean results to the backend after human-in-the-loop review. I built MCP connectors to extend agent reach across internal systems and third-party platforms, and integrated event-driven workflows across booking systems, CRMs, and payment APIs. Claude Code is my primary development tool and I use spec-driven development daily. I build in TypeScript, Node.js, and React with PostgreSQL and DynamoDB on AWS (Lambda, S3, API Gateway, CloudWatch). I own workstreams end-to-end from problem framing through deployment, observability, and iteration.

Skills

- **Agentic AI & MCP:** Claude Code (primary dev tool, spec-driven development), Claude API, OpenAI, agentic orchestration with tool use and function calling, MCP protocol connectors and skills, agent evaluation and reliability monitoring, RAG pipelines with vector search, structured outputs, confidence scoring, prompt engineering, SSE streaming, LLM observability, multi-agent systems, Cursor
- **Backend & data:** TypeScript, Node.js, React, Next.js, Python, PostgreSQL, MongoDB, DynamoDB, Supabase, REST API design, event-driven architecture, complex API orchestration (rate limits, OAuth, retries, webhooks, circuit breakers), end-to-end feature ownership
- **Infrastructure & automation:** AWS (Lambda, S3, DynamoDB, API Gateway, CloudWatch, SQS, Cognito), Docker, n8n workflow automation, Git, GitHub Actions, CI/CD, data extraction and transformation pipelines, API integrations (Stripe, Slack, booking systems, CRM pipelines)

Experience

FlowSpace.co — **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) — *London, UK (remote)*

- Built an AI listing pipeline that takes documents in any format (PDF, web page, photo or spreadsheet), extracts structured data using LLM APIs with agentic orchestration and retrieval, and pushes validated results to the backend after human review. Handles hundreds of sources with different formats.
- Built RAG-backed support agents that answer customer queries against live platform data and escalate to a person on low confidence. Implemented confidence scoring and retrieval quality monitoring.
- Built integrations against customer APIs and booking systems (OfficeRnD, Nexudus), CRM pipelines (Attio, Amplemarket, Swan), and payment flows (Stripe), iterating quickly on customer feedback.
- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product. Scaled from 2,000 to 4,500+ users.

Get2Germany.com — **Jan 2024 – May 2024**
Developer & Automation Specialist (Part-time) — *Berlin, Germany*

Integrated Google APIs, built AI tools to find courses, internships and jobs, and optimized the database. Stack: n8n, Google APIs.

Clubee.com — **Sep 2023 – Aug 2024**
Developer & QA (Full-time, Freelance) — *Foetz, Luxembourg*

Integrated the Clubee API across the frontend, ran unit testing and QA, and built shop and federation-dashboard tools.

Tractionboard.co — **Aug 2023 – Oct 2023**
Developer (Internship) — *Utrecht, Netherlands*

Integrated ChatGPT/OpenAI and Sendgrid, built responsive designs, and debugged features.

Freelance Projects

- **Urlink** (2025), Project Manager & AI-Assisted Developer. Worked directly with the client on requirements, built the platform and its logic, and implemented client-driven automations. Stack: Next.js, Supabase, Netlify.
- **UltraStrategy** (2024 to 2025), AI Automation Developer. Built a CV-parsing tool (LLM data extraction) with n8n and Eden AI, and a platform serving different user profiles.
- **Qomodo** (2024 to 2025), AI Developer. Built a dashboard for companies to manage their branches, and implemented Figma designs.

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Education

Ca' Foscari University of Venice Oct 2020 – Jun 2024

BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Work authorization: European Long Term Residence Permit (Italy), no sponsorship needed in the EU; available immediately.
Languages: Hindi (native), English (professional), Italian (beginner).
