Summary

I ship production AI in customer-facing settings. At FlowSpace I built an AI listing pipeline that takes any input (PDF, website, image, spreadsheet), extracts structured data with LLMs, applies confidence scoring, and pushes it to the backend after human review; the same platform grew 2,000 to 4,500+ users on my watch. I have run integrations with OfficeRnD, Nexudus, Attio, Amplemarket, Swan, Google, Sendgrid and Stripe; built support AI agents with human handoff; and worked customer-side with operational teams, an external agency and end users. Three years across eight European companies, coding daily in TypeScript, Node.js and Python.

Skills

- **Customer-facing AI delivery:** embedded with operational teams and end users, translating business problems into production AI solutions, running deployments and handovers, resolving customer issues end to end
- **Production AI systems:** AI listing pipeline in daily use, support AI agents with confidence-based human handoff, LLM data extraction and structured outputs, prompt engineering and evaluation (Claude, OpenAI, Eden AI)
- **APIs & integrations:** REST APIs, webhooks, OAuth/OIDC, third-party integrations (Attio, Amplemarket, Swan, OfficeRnD, Nexudus, Google, Stripe, Sendgrid), n8n for orchestration
- **Languages & platforms:** TypeScript, JavaScript, Node.js, Python, Next.js, React, Laravel (PHP), PostgreSQL, Supabase, Vercel, Git, Playwright

Experience

FlowSpace.co — **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) — *London, UK (remote)*

- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product, mapping the data model and driving the cutover. Scaled it from 2,000 to 4,500+ users.
- Built an AI listing bot with a human in the loop: it takes a brochure in any format (PDF, web page, photo or spreadsheet), drafts the full listing with an LLM, and pushes it to the backend after review.
- Built support AI agents that answer customer queries against live platform data and escalate to a person on low confidence.
- Built CRM and GTM automations with n8n, including a pipeline connecting Attio, Amplemarket and Swan, plus OfficeRnD and Nexudus booking integrations.
- Worked directly with the internal team, an external agency and customers, and resolved issues end to end.
