Prabhavit Gupta

Implementation Engineer, AI Platform Integration & SaaS Customer Onboarding

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

Implementation engineer who drives the technical onboarding of SaaS customers and builds the integrations that connect platforms to their existing tooling. At FlowSpace I configured automation flows, integrated third-party systems (booking platforms, CRMs, helpdesks, payment APIs) via REST APIs, JSON payloads, and webhooks, and trained customers on the platform. I wrote integration code in Node.js, TypeScript, and Python, debugged API failures by tracing requests across services, and built validation scripts to catch issues before go-live. I also built an AI data pipeline that ingests documents in any format, extracts structured data via API orchestration, and pushes validated results to the backend after human review. I conducted training sessions and workshops, gathered customer feedback to improve the implementation process, and managed multiple implementation projects simultaneously. I work autonomously in a fully remote setup aligned to UK business hours.

Skills

- **Implementation & integration:** Node.js, Python, TypeScript, REST API design and consumption, JSON, webhooks, system integrations (CRM, helpdesk, e-commerce, payment platforms), API testing and validation scripting, SQL (PostgreSQL, Supabase), React, Next.js
- **Customer-facing delivery:** Technical implementation and onboarding, automation flow configuration, customer requirement gathering, training sessions and workshops, troubleshooting and issue resolution, project management across multiple implementations, documentation authoring
- **AI & automation:** AI-driven data extraction pipelines, LLM API integration, complex API orchestration (rate limits, OAuth, retries), n8n workflow automation, monitoring and alerting, GitHub Actions CI/CD, Docker, Vercel

Experience

FlowSpace.co **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Built an AI listing pipeline that takes documents in any format (PDF, web page, photo or spreadsheet), extracts structured data using LLM APIs with agentic orchestration and retrieval, and pushes validated results to the backend after human review. Handles hundreds of sources with different formats.
- Built RAG-backed support agents that answer customer queries against live platform data and escalate to a person on low confidence. Implemented confidence scoring and retrieval quality monitoring.
- Built integrations against customer APIs and booking systems (OfficeRnD, Nexudus), CRM pipelines (Attio, Amplemarket, Swan), and payment flows (Stripe), iterating quickly on customer feedback.
- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product. Scaled from 2,000 to 4,500+ users.

Get2Germany.com **Jan 2024 – May 2024**
Developer & Automation Specialist (Part-time) *Berlin, Germany*

Integrated Google APIs, built AI tools to find courses, internships and jobs, and optimized the database. Stack: n8n, Google APIs.

Clubee.com **Sep 2023 – Aug 2024**
Developer & QA (Full-time, Freelance) *Foetz, Luxembourg*

Integrated the Clubee API across the frontend, ran unit testing and QA, and built shop and federation-dashboard tools.

Tractionboard.co **Aug 2023 – Oct 2023**
Developer (Internship) *Utrecht, Netherlands*

Integrated ChatGPT/OpenAI and Sendgrid, built responsive designs, and debugged features.

Freelance Projects

- **Urlink** (2025), Project Manager & AI-Assisted Developer. Worked directly with the client on requirements, built the platform and its logic, and implemented client-driven automations. Stack: Next.js, Supabase, Netlify.
- **UltraStrategy** (2024 to 2025), AI Automation Developer. Built a CV-parsing tool (LLM data extraction) with n8n and Eden AI, and a platform serving different user profiles.
- **Qomodo** (2024 to 2025), AI Developer. Built a dashboard for companies to manage their branches, and implemented Figma designs.

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Education

Ca' Foscari University of Venice Oct 2020 – Jun 2024

BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Work authorization: European Long Term Residence Permit (Italy), no sponsorship needed in the EU; available immediately.
Languages: Hindi (native), English (professional), Italian (beginner).
