Summary

I build AI-powered automation and agents in production, owning projects end to end from discovery through deployment and adoption. At FlowSpace I designed and shipped an autonomous listing pipeline that takes documents in any format (PDF, web page, photo or spreadsheet), extracts structured data via LLMs, and publishes it after human review. I also built RAG-powered support agents and CRM automations connecting sales, operations and finance tools. I write TypeScript, Python and Node.js, work daily with LLM APIs (OpenAI, Claude), and use Claude Code as my primary development tool.

Skills

- **AI & LLMs:** production AI agents, LLM APIs (OpenAI, Claude, Gemini), RAG, prompt engineering, agentic workflows, human-in-the-loop review, evals, Claude Code
- **Automation:** n8n workflow automation, end-to-end pipeline design, CRM and GTM automation, webhook orchestration, scheduling, error handling
- **Languages & frameworks:** TypeScript, JavaScript, Next.js, React, Node.js, Python, Laravel (PHP)
- **APIs & data:** REST APIs, webhooks, third-party integrations (CRM, booking, email, Google), PostgreSQL, Supabase

Experience

FlowSpace.co **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Built an AI listing bot with a human in the loop: it takes a brochure in any format (PDF, web page, photo or spreadsheet), drafts the full listing with an LLM, and pushes it to the backend after review.
- Built support AI agents that answer customer queries against live platform data and escalate to a person on low confidence.
- Built CRM and GTM automations with n8n, including a pipeline connecting Attio, Amplemarket and Swan, plus OfficeRnD and Nexudus booking integrations.
- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product, mapping the data model and driving the cutover. Scaled it from 2,000 to 4,500+ users.
- Worked directly with the internal team, an external agency and customers, and resolved issues end to end.
