Summary

I build production automations and AI agents that eliminate manual work across business teams. At FlowSpace I designed autonomous workflows end to end: a listing pipeline that takes documents in any format, drafts structured listings via LLMs, and pushes them after human review, plus support agents that answer against live data and CRM automations connecting sales, operations and finance tools. I orchestrate workflows with n8n, write TypeScript and Python, wire in OpenAI and Claude APIs, and use SQL and PostgreSQL daily.

Skills

- **n8n & workflow automation:** highly proficient with n8n in production, multi-step orchestration, error handling, scheduling, webhook triggers
- **AI agents & LLMs:** agentic workflows built and operated in production, LLM APIs (OpenAI, Claude, Gemini), RAG, prompt engineering, human-in-the-loop review, evals, Claude Code
- **APIs & integrations:** REST APIs, webhooks, authentication, third-party integrations (Attio, Amplemarket, OfficeRnD, Nexudus, Google, Sendgrid), PostgreSQL, Supabase, SQL
- **Languages & frameworks:** TypeScript, JavaScript, Next.js, React, Node.js, Python, Laravel (PHP)

Experience

FlowSpace.co **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Built an AI listing bot with a human in the loop: it takes a brochure in any format (PDF, web page, photo or spreadsheet), drafts the full listing with an LLM, and pushes it to the backend after review.
- Built support AI agents that answer customer queries against live platform data and escalate to a person on low confidence.
- Built CRM and GTM automations with n8n, including a pipeline connecting Attio, Amplemarket and Swan, plus OfficeRnD and Nexudus booking integrations.
- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product, mapping the data model and driving the cutover. Scaled it from 2,000 to 4,500+ users.
- Worked directly with the internal team, an external agency and customers, and resolved issues end to end.
