Summary

I go into small teams and ship the AI product end to end. At FlowSpace I took a live marketplace off a legacy stack onto a coded Next.js and Laravel platform, ran the data model mapping and the cutover, and built the AI listing pipeline, support agents and CRM automations on top; the product grew from 2,000 to 4,500+ users on my watch. I have worked across eight European tech companies in three years, sitting with operational teams, external agencies and founders through discovery, delivery and post-go-live. I code daily in TypeScript, Node.js and Python; freelance/B2B-native since day one.

Skills

- **Workflow automation & integration:** n8n (2+ years production use), REST APIs, webhooks, OAuth/OIDC, data transformation between systems, third-party platform integrations (Attio, Amplemarket, Swan, OfficeRnD, Nexudus, Google, Stripe, Sendgrid)
- **Customer-facing delivery:** embedding with operational teams, translating messy business problems into production automation solutions, running deployments end to end, building solutions customers can own and operate
- **AI agents & LLM systems:** production AI agents (Claude and OpenAI APIs), structured data extraction from unstructured sources, confidence scoring, human-in-the-loop review, multi-step agent orchestration
- **Languages & platforms:** TypeScript, JavaScript, Node.js, Python, Next.js, React, Laravel (PHP), PostgreSQL, Supabase, Vercel, Git

Experience

FlowSpace.co **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product, mapping the data model and driving the cutover. Scaled it from 2,000 to 4,500+ users.
- Built an AI listing bot with a human in the loop: it takes a brochure in any format (PDF, web page, photo or spreadsheet), drafts the full listing with an LLM, and pushes it to the backend after review.
- Built support AI agents that answer customer queries against live platform data and escalate to a person on low confidence.
- Built CRM and GTM automations with n8n, including a pipeline connecting Attio, Amplemarket and Swan, plus OfficeRnD and Nexudus booking integrations.
- Worked directly with the internal team, an external agency and customers, and resolved issues end to end.
