Summary

At FlowSpace I built and maintained internal tools, dashboards and automation workflows that served the operations and revenue teams daily. I connected CRM (Attio), outbound (Amplemarket), payments (Swan) and booking platforms (OfficeRnD, Nexudus) through API integrations and n8n workflows, and built Slack-connected notification systems. I also built custom admin dashboards in Next.js and maintained the full-stack codebase (Next.js, Laravel, PostgreSQL). I code daily in TypeScript and JavaScript, write SQL for data queries and reporting, and work directly with cross-functional stakeholders to translate business needs into technical solutions.

Skills

- **Internal tools & integrations:** custom admin dashboards (Next.js), API integrations (REST, webhooks), Slack integrations and bots, n8n workflow automation, third-party platform connections (Attio, Amplemarket, Swan, OfficeRnD, Nexudus, HubSpot-adjacent CRMs, Google, Sendgrid)
- **Languages & data:** TypeScript, JavaScript (expert), SQL (PostgreSQL, complex queries, reporting), Node.js, Python, Next.js, React, Laravel (PHP), Supabase, Git (feature branching, PRs, code review)
- **AI-assisted development:** Claude Code (primary dev tool), AI agents built and operated in production, LLM APIs (OpenAI, Claude), structured data extraction, prompt engineering
- **Ways of working:** cross-functional collaboration with non-technical stakeholders, translating business requirements into technical solutions, service-level reliability, end-to-end ownership

Experience

FlowSpace.co **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product, mapping the data model and driving the cutover. Scaled it from 2,000 to 4,500+ users.
- Built an AI listing bot with a human in the loop: it takes a brochure in any format (PDF, web page, photo or spreadsheet), drafts the full listing with an LLM, and pushes it to the backend after review.
- Built support AI agents that answer customer queries against live platform data and escalate to a person on low confidence.
- Built CRM and GTM automations with n8n, including a pipeline connecting Attio, Amplemarket and Swan, plus OfficeRnD and Nexudus booking integrations.
- Worked directly with the internal team, an external agency and customers, and resolved issues end to end.
