Prabhavit Gupta

Customer Engineer, TypeScript AI Agent Frameworks & Production Deployments

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

Customer-facing engineer who deploys AI agent systems into production and feeds patterns back into the framework. At FlowSpace I built an agentic data pipeline (TypeScript, Python, LLM APIs) that ingests documents in any format, runs multi-step extraction with validation, and pushes results to the backend after human review. I designed the system alongside internal users, trained them on the tooling, and iterated the architecture based on real deployment feedback. I also built conversational support agents with confidence scoring and escalation, and shipped integrations against booking, CRM, and payment APIs. Claude Code is my primary development tool; I use AI coding agents daily for prototyping, architecture, and review. I work autonomously in remote settings within CET hours and take ownership from customer collaboration through core framework contributions.

Skills

- **TypeScript & full stack:** TypeScript (frontend and backend), React, Next.js (App Router, SSR, server components), Node.js, Python (AI agent backends, scripting, data pipelines), Tailwind CSS, PostgreSQL, Supabase, REST API design, WebSockets, Vercel, Docker, GitHub Actions
- **AI agents & orchestration:** Claude Code (primary dev tool), Cursor, agentic orchestration (multi-step pipelines, tool calling, human-in-the-loop review), conversational AI flows, Claude and OpenAI API integration, prompt engineering, output verification, n8n workflow automation, agent reliability and evaluation strategies
- **Customer deployment & integrations:** Complex API orchestration (rate limits, OAuth, retries, webhooks), third-party integrations (CRM, booking, payment), customer onboarding and training, production monitoring, pattern identification across implementations

Experience

FlowSpace.co **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Built an AI listing pipeline that takes documents in any format (PDF, web page, photo or spreadsheet), extracts structured data using LLM APIs with agentic orchestration and retrieval, and pushes validated results to the backend after human review. Handles hundreds of sources with different formats.
- Built RAG-backed support agents that answer customer queries against live platform data and escalate to a person on low confidence. Implemented confidence scoring and retrieval quality monitoring.
- Built integrations against customer APIs and booking systems (OfficeRnD, Nexudus), CRM pipelines (Attio, Amplemarket, Swan), and payment flows (Stripe), iterating quickly on customer feedback.
- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product. Scaled from 2,000 to 4,500+ users.

Get2Germany.com **Jan 2024 – May 2024**
Developer & Automation Specialist (Part-time) *Berlin, Germany*

Integrated Google APIs, built AI tools to find courses, internships and jobs, and optimized the database. Stack: n8n, Google APIs.

Clubee.com **Sep 2023 – Aug 2024**
Developer & QA (Full-time, Freelance) *Foetz, Luxembourg*

Integrated the Clubee API across the frontend, ran unit testing and QA, and built shop and federation-dashboard tools.

Tractionboard.co **Aug 2023 – Oct 2023**
Developer (Internship) *Utrecht, Netherlands*

Integrated ChatGPT/OpenAI and Sendgrid, built responsive designs, and debugged features.

Freelance Projects

- **Urlink** (2025), Project Manager & AI-Assisted Developer. Worked directly with the client on requirements, built the platform and its logic, and implemented client-driven automations. Stack: Next.js, Supabase, Netlify.
- **UltraStrategy** (2024 to 2025), AI Automation Developer. Built a CV-parsing tool (LLM data extraction) with n8n and Eden AI, and a platform serving different user profiles.
- **Qomodo** (2024 to 2025), AI Developer. Built a dashboard for companies to manage their branches, and implemented Figma designs.

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Education

Ca' Foscari University of Venice Oct 2020 – Jun 2024

BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Work authorization: European Long Term Residence Permit (Italy), no sponsorship needed in the EU; available immediately.
Languages: Hindi (native), English (professional), Italian (beginner).
