Prabhavit Gupta

Backend & Cloud Platform Engineer, Data Pipelines & Infrastructure

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

I build production backend services and data pipelines that process unstructured inputs into validated, structured outputs at scale. At FlowSpace I architected and owned a multi-stage computational pipeline that ingests documents in any format (PDFs, web pages, photos, spreadsheets), runs extraction and validation through orchestrated Python services, and pushes clean results to a PostgreSQL backend after human-in-the-loop review. I have shipped Docker-based services to production on AWS, built CI/CD pipelines with GitHub Actions, and managed relational database schemas through migrations on a live platform. I make architecture decisions daily and own systems end to end: design, build, deploy, monitor, and iterate based on real production data.

Skills

- **Backend & cloud infrastructure:** Python, PostgreSQL, Docker, REST APIs, AWS, CI/CD (GitHub Actions), infrastructure as code, database schema design and migrations, production monitoring and debugging
- **Data & computational pipelines:** multi-stage data processing pipelines, unstructured-to-structured extraction, validation and transformation workflows, orchestrated Python services, human-in-the-loop review systems, confidence scoring
- **Full-stack & integrations:** TypeScript, JavaScript, Node.js, Next.js, React, API integrations (booking systems, CRM pipelines, payment flows), Supabase, Git, webhooks

Experience

FlowSpace.co — **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) — *London, UK (remote)*

- Architected and owned a multi-stage data pipeline that ingests documents in any format (PDF, web page, photo or spreadsheet), runs extraction and validation through orchestrated Python services, and pushes clean results to a PostgreSQL backend after human review. Handles hundreds of sources with different formats and structures.
- Built RAG-backed support agents that answer customer queries against live platform data and escalate to a person on low confidence. Implemented confidence scoring and retrieval quality monitoring.
- Built integrations against customer APIs and booking systems (OfficeRnD, Nexudus), CRM pipelines (Attio, Amplemarket, Swan), and payment flows (Stripe), translating client requirements into working systems and iterating on feedback.
- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product on PostgreSQL. Scaled from 2,000 to 4,500+ users.
- Owned systems end to end: scoped requirements with clients, designed the architecture, built and deployed, monitored production, and iterated based on real data and failure modes.

Get2Germany.com — **Jan 2024 – May 2024**
Developer & Automation Specialist (Part-time) — *Berlin, Germany*

Integrated Google APIs, built AI tools to find courses, internships and jobs, and optimized the database. Stack: n8n, Google APIs.

Clubee.com — **Sep 2023 – Aug 2024**
Developer & QA (Full-time, Freelance) — *Foetz, Luxembourg*

Integrated the Clubee API across the frontend, ran unit testing and QA, and built shop and federation-dashboard tools.

Tractionboard.co — **Aug 2023 – Oct 2023**
Developer (Internship) — *Utrecht, Netherlands*

Integrated ChatGPT/OpenAI and Sendgrid, built responsive designs, and debugged features.

Freelance Projects

- **Urlink** (2025), Project Manager & AI-Assisted Developer. Worked directly with the client on requirements, built the platform and its logic, and implemented client-driven automations. Stack: Next.js, Supabase, Netlify.
- **UltraStrategy** (2024 to 2025), AI Automation Developer. Built a CV-parsing tool (LLM data extraction) with n8n and Eden AI, and a platform serving different user profiles.
- **Qomodo** (2024 to 2025), AI Developer. Built a dashboard for companies to manage their branches, and implemented Figma designs.

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Education

Ca' Foscari University of Venice — Oct 2020 – Jun 2024
BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Work authorization: European Long Term Residence Permit (Italy), no sponsorship needed in the EU; available immediately.
Languages: Hindi (native), English (professional), Italian (beginner).
