Prabhavit Gupta

AI Systems & Automation Engineer, Claude/MCP Agent Orchestration, Python & TypeScript

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

AI systems engineer who builds production agents and internal automation end to end. I use Claude Code as my primary development tool every day and build multi-step AI agents with the Anthropic API, structured output, function calling, and tool use (MCP-style patterns). At FlowSpace I designed and shipped an AI data pipeline that orchestrates LLM agents to ingest documents in any format, extract structured data with retrieval-augmented generation, and push validated results to production after human review with strict guardrails. I built integrations against third-party SaaS APIs (booking systems, CRMs, payment platforms), designed human-in-the-loop approval workflows, and implemented evaluation and monitoring for agent accuracy, latency, and cost. I work across Python, TypeScript, and PHP/Laravel, and I ship fast in small teams with full ownership.

Skills

- **Claude & AI agents:** Claude Code (daily driver), Anthropic API, Claude SDKs, prompt engineering, Model Context Protocol (MCP), tool use and function calling, structured output parsing, multi-step agent orchestration, Agent Skills patterns, RAG pipelines, vector database retrieval, embeddings, confidence scoring, guardrails, human-in-the-loop review, evaluation harnesses (accuracy, hallucination, latency, cost)
- **Backend & integrations:** Python, TypeScript, PHP/Laravel, REST API design and consumption, SaaS API integrations (CRM, booking, payment platforms), webhooks, asynchronous jobs, queues, retry and rate-limit handling, PostgreSQL, MySQL, Redis, Supabase, data extraction and transformation pipelines
- **Infrastructure & delivery:** Docker, GitHub Actions CI/CD, AWS (EC2, S3, CloudWatch), Vercel, DigitalOcean, automated testing (Jest, Playwright), production monitoring and logging, Agile/Scrum

Experience

FlowSpace.co — **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) — *London, UK (remote)*

- Built an AI listing pipeline that orchestrates multi-step LLM agents with tool use, structured output parsing, and retrieval to ingest documents in any format (PDF, web page, photo, spreadsheet) and push validated results to production after human review. Handles hundreds of sources with different formats.
- Designed human-in-the-loop workflows with schema validation, approval gates, and escalation paths so non-technical staff could safely review and approve AI outputs before they reached production.
- Built integrations against customer APIs and booking systems (OfficeRnD, Nexudus), CRM pipelines (Attio, Amplemarket, Swan), and payment flows (Stripe), managing rate limits, webhooks, and retry logic across service boundaries.
- Built RAG-backed support agents that answer customer queries against live platform data and escalate to a person on low confidence. Implemented confidence scoring and retrieval quality monitoring.
- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product. Scaled from 2,000 to 4,500+ users.

Get2Germany.com — **Jan 2024 – May 2024**
Developer & Automation Specialist (Part-time) — *Berlin, Germany*

Integrated Google APIs, built AI tools to find courses, internships and jobs, and optimized the database. Stack: n8n, Google APIs.

Clubee.com — **Sep 2023 – Aug 2024**
Developer & QA (Full-time, Freelance) — *Foetz, Luxembourg*

Integrated the Clubee API across the frontend, ran unit testing and QA, and built shop and federation-dashboard tools.

Tractionboard.co — **Aug 2023 – Oct 2023**
Developer (Internship) — *Utrecht, Netherlands*

Integrated ChatGPT/OpenAI and Sendgrid, built responsive designs, and debugged features.

Freelance Projects

- **Urlink** (2025), Project Manager & AI-Assisted Developer. Worked directly with the client on requirements, built the platform and its logic, and implemented client-driven automations. Stack: Next.js, Supabase, Netlify.
- **UltraStrategy** (2024 to 2025), AI Automation Developer. Built a CV-parsing tool (LLM data extraction) with n8n and Eden AI, and a platform serving different user profiles.
- **Qomodo** (2024 to 2025), AI Developer. Built a dashboard for companies to manage their branches, and implemented Figma designs.

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Education

Ca' Foscari University of Venice Oct 2020 – Jun 2024

BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Work authorization: European Long Term Residence Permit (Italy), no sponsorship needed in the EU; available immediately.
Languages: Hindi (native), English (professional), Italian (beginner).
