Prabhavit Gupta

Forward Deployed AI Engineer, Full-Stack & Data Pipelines

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

I build full-stack AI products end to end: from data pipelines and PostgreSQL schema design through Python services and Next.js frontends, with AI agents and RAG workflows layered on top. At FlowSpace I built an agentic data pipeline that ingests documents in any format (PDFs, web pages, photos, spreadsheets), extracts and validates structured data using LLM APIs with tool use and retrieval patterns, and pushes clean results to a PostgreSQL backend after human-in-the-loop review. I use Claude Code as my primary development accelerator every day, not as autocomplete but as a genuine force multiplier for moving from spec to working software. I work directly with clients on requirements and own systems from discovery through production deployment.

Skills

- **AI agents & data pipelines:** production agentic workflows (Claude and OpenAI APIs), RAG pipelines, tool-use orchestration, structured-output extraction, data transformation and validation pipelines, human-in-the-loop review, confidence scoring, agentic coding (Claude Code daily)
- **Full-stack & platforms:** Python, TypeScript, JavaScript, Next.js, React, Node.js, SQL, PostgreSQL, Supabase, Docker, REST APIs, webhooks, AWS, Git, GitHub Actions, CI/CD
- **Client delivery & integrations:** end-to-end project ownership (discovery to production), API integrations (booking systems, CRM pipelines, payment flows), n8n workflow automation, working directly with client teams on requirements and trade-offs

Experience

FlowSpace.co **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Built an AI data pipeline that takes documents in any format (PDF, web page, photo or spreadsheet), extracts structured data using LLM APIs with agentic orchestration and retrieval, validates against the platform schema, and pushes results to PostgreSQL after human review. Handles hundreds of sources with different formats and structures.
- Built RAG-backed support agents that answer customer queries against live platform data and escalate to a person on low confidence. Implemented confidence scoring and retrieval quality monitoring.
- Built integrations against customer APIs and booking systems (OfficeRnD, Nexudus), CRM pipelines (Attio, Amplemarket, Swan), and payment flows (Stripe), translating client requirements into working systems and iterating on feedback.
- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product on PostgreSQL. Scaled from 2,000 to 4,500+ users.
- Owned systems end to end: scoped requirements with clients, designed the architecture, built and deployed, monitored production, and iterated based on real data and failure modes.

Get2Germany.com **Jan 2024 – May 2024**
Developer & Automation Specialist (Part-time) *Berlin, Germany*

Integrated Google APIs, built AI tools to find courses, internships and jobs, and optimized the database. Stack: n8n, Google APIs.

Clubee.com **Sep 2023 – Aug 2024**
Developer & QA (Full-time, Freelance) *Foetz, Luxembourg*

Integrated the Clubee API across the frontend, ran unit testing and QA, and built shop and federation-dashboard tools.

Tractionboard.co **Aug 2023 – Oct 2023**
Developer (Internship) *Utrecht, Netherlands*

Integrated ChatGPT/OpenAI and Sendgrid, built responsive designs, and debugged features.

Freelance Projects

- **Urlink** (2025), Project Manager & AI-Assisted Developer. Worked directly with the client on requirements, built the platform and its logic, and implemented client-driven automations. Stack: Next.js, Supabase, Netlify.
- **UltraStrategy** (2024 to 2025), AI Automation Developer. Built a CV-parsing tool (LLM data extraction) with n8n and Eden AI, and a platform serving different user profiles.
- **Qomodo** (2024 to 2025), AI Developer. Built a dashboard for companies to manage their branches, and implemented Figma designs.

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Education

Ca' Foscari University of Venice Oct 2020 – Jun 2024

BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Work authorization: European Long Term Residence Permit (Italy), no sponsorship needed in the EU; available immediately.
Languages: Hindi (native), English (professional), Italian (beginner).
