Summary

I build full-stack products with AI-powered automation for PropTech and marketplace platforms. At FlowSpace I built a coworking marketplace serving 4,500+ users on a React, Laravel and PostgreSQL stack, and layered AI systems on top: a listing pipeline that ingests documents in any format and drafts structured listings using LLM APIs with agentic orchestration, plus support AI agents with confidence scoring that search live platform data. I also built operational automations connecting booking systems (OfficeRnD, Nexudus), CRM and payment platforms. I work daily in Python and TypeScript against Supabase and PostgreSQL.

Skills

- **Full-stack & platform:** React, TypeScript, Next.js, Python, FastAPI, Node.js, Laravel (PHP), REST APIs, Supabase, PostgreSQL, Docker, AWS, Git, GitHub Actions
- **AI & automation:** production AI agents (OpenAI and Claude APIs), agentic orchestration, RAG, structured-output extraction, tool-use orchestration, confidence scoring, n8n workflow automation, Stripe and Twilio integrations
- **Domain:** PropTech marketplace, booking system integrations, CRM and GTM pipelines, operational automation at scale

Experience

FlowSpace.co **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Took over a live coworking marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product, mapping the data model and driving the cutover. Scaled it from 2,000 to 4,500+ users.
- Built an AI listing bot with a human in the loop: it takes a brochure in any format (PDF, web page, photo or spreadsheet), drafts the full listing with an LLM, and pushes it to the backend after review.
- Built support AI agents that answer customer queries against live platform data and escalate to a person on low confidence.
- Built booking integrations with OfficeRnD and Nexudus, CRM automations connecting Attio, Amplemarket and Swan, and payment flows with Stripe.
- Worked directly with the founder, the internal team, an external agency and customers, and resolved issues end to end.
