Summary

I build product features end to end, from the React frontend through the backend API to the AI layer underneath. At FlowSpace I owned the full stack of a Next.js and Laravel marketplace, shipping features that users interacted with daily while also building LLM-powered tools that ran in production for over two years. I work across TypeScript, Python, Node.js and SQL, and I use Claude Code and LLM APIs as core parts of my daily workflow.

Skills

- **Frontend & product:** TypeScript, React, Next.js, responsive UI, product ownership end to end, shipping on real user feedback, performance optimization
- **Backend & data:** Node.js, Laravel (PHP), REST APIs, webhooks, PostgreSQL, MySQL, Supabase, ClickHouse (familiar), database design
- **AI & LLMs:** LLM APIs (OpenAI, Claude) in production, AI agents, prompt engineering, structured output extraction, RAG, human-in-the-loop review, evals, Claude Code, MCP servers
- **Ways of working:** owning features from spec to docs, community and user support, cross-functional collaboration, iterating on feedback

Experience

FlowSpace.co **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product, mapping the data model and driving the cutover. Scaled it from 2,000 to 4,500+ users.
- Built an AI listing bot with a human in the loop: it takes a brochure in any format (PDF, web page, photo or spreadsheet), drafts the full listing with an LLM, and pushes it to the backend after review. Designed the review interface so the operations team could verify and edit drafts in under 5 minutes.
- Built support AI agents that answer customer queries against live platform data and escalate to a person on low confidence.
- Built CRM and GTM automations with n8n, including a pipeline connecting Attio, Amplemarket and Swan, plus OfficeRnD and Nexudus booking integrations.
- Worked directly with the internal team, an external agency and customers, and resolved issues end to end.
