Prabhavit Gupta

AI Engineer

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

I build AI systems that real users rely on every day, not prototypes. At FlowSpace I built the full AI layer for a live coworking marketplace: an agentic listing pipeline that takes unstructured documents in any format, extracts structured data via LLMs, runs evals against reference outputs, and pushes verified listings after human review. I also built support agents that query live data and escalate on low confidence. I ship production interfaces in Next.js and TypeScript, iterate on error analysis until the numbers move, and work directly with non-technical stakeholders to define what "good" means.

Skills

- **AI systems in production:** agentic pipelines, tool calling, structured outputs, retrieval, prompt and context engineering, evals, human-in-the-loop review, guardrails and escalation, LLM APIs (OpenAI, Claude)
- **Languages & frameworks:** TypeScript, JavaScript, Next.js, React, Node.js, Python, Laravel (PHP)
- **Data & integrations:** PostgreSQL, Supabase, REST APIs, webhooks, third-party integrations (Attio, Amplemarket, OfficeRnD, Nexudus, Google, Sendgrid), n8n workflow orchestration, Claude Code
- **Ways of working:** owning problems end to end, customer and stakeholder communication, shipping and iterating on real-world feedback, presenting technical topics to non-technical audiences

Experience

FlowSpace.co **Mar 2024 – Aug 2026**

Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Built an agentic listing pipeline with a human in the loop: it takes a brochure in any format (PDF, web page, photo or spreadsheet), extracts structured data via LLMs, evaluates outputs against reference data, and pushes verified listings to the backend after review.
- Built support AI agents that answer customer queries against live platform data and escalate to a person on low confidence. Designed the context retrieval, tool-calling layer, and guardrails.
- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product, mapping the data model and driving the cutover. Scaled it from 2,000 to 4,500+ users.
- Built the production interface layer: review screens, approval workflows, and monitoring dashboards in Next.js and TypeScript.
- Built CRM and GTM automations with n8n, including a pipeline connecting Attio, Amplemarket and Swan, plus OfficeRnD and Nexudus booking integrations.
- Worked directly with the internal team, an external agency and customers, and resolved issues end to end. Presented technical progress to non-technical stakeholders.

Get2Germany.com **Jan 2024 – May 2024**

Developer & Automation Specialist (Part-time) *Berlin, Germany*

Integrated Google APIs, built AI tools to find courses, internships and jobs, and optimized the database. Stack: n8n, Google APIs.

Clubee.com **Sep 2023 – Aug 2024**

Developer & QA (Full-time, Freelance) *Foetz, Luxembourg*

Integrated the Clubee API across the frontend, ran unit testing and QA, and built shop and federation-dashboard tools.

Tractionboard.co **Aug 2023 – Oct 2023**

Developer (Internship) *Utrecht, Netherlands*

Integrated ChatGPT/OpenAI and Sendgrid, built responsive designs, and debugged features.

Freelance Projects

- **Urlink** (2025), Project Manager & AI-Assisted Developer. Worked directly with the client on requirements, built the platform and its logic, and implemented client-driven automations. Stack: Next.js, Supabase, Netlify.
- **UltraStrategy** (2024 to 2025), AI Automation Developer. Built a CV-parsing tool (LLM data extraction) with n8n and Eden AI, and a platform serving different user profiles.
- **Qomodo** (2024 to 2025), AI Developer. Built a dashboard for companies to manage their branches, and implemented Figma designs.

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Education

Ca' Foscari University of Venice Oct 2020 – Jun 2024

BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Work authorization: European Long Term Residence Permit (Italy), no sponsorship needed in the EU; available immediately.
Languages: Hindi (native), English (professional), Italian (beginner).
