Prabhavit Gupta

AI Integration Engineer, n8n & LLM Automation Workflows, Python/TypeScript & API Integrations

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

AI integration engineer who connects business systems and builds automation workflows that replace manual processes with reliable, production-grade pipelines. At FlowSpace I designed and shipped an AI data pipeline that orchestrates multi-step LLM agents with tool use, structured output parsing, and retrieval-augmented generation to ingest documents in any format and push validated results to production after human review. I built integrations across ERPs, CRMs, booking platforms, and payment systems, managing APIs, webhooks, rate limits, and retry logic across service boundaries. I work daily with n8n and Claude Code for workflow orchestration and AI-assisted development, building context-engineered prompts, RAG pipelines with evaluation frameworks, and human-in-the-loop approval gates with schema validation. I ship across Python and TypeScript with PostgreSQL underneath, taking full ownership from stakeholder requirements to deployed, monitored automation.

Skills

- **Workflow orchestration & integration:** n8n (production workflows), API design and integration (REST, webhooks, event-driven), ERP/CRM/finance system connectors (Odoo-adjacent, Attio, Stripe), data sync and reconciliation pipelines, retry and rate-limit handling, secrets management, Docker, self-hosted tooling
- **AI & LLM integration:** Claude Code (daily driver), Anthropic API, OpenAI API, prompt engineering and context engineering for multi-step reasoning, tool use and function calling, structured output parsing, retrieval-augmented generation (RAG), vector search, evaluation frameworks (accuracy, hallucination, latency, cost), confidence scoring, human-in-the-loop review, Model Context Protocol (MCP)
- **Fullstack & data:** Python, TypeScript, JavaScript, React, Next.js, Node.js, PostgreSQL, MySQL, Redis, Supabase, SQL optimization, large dataset analysis, data modeling, Git, GitHub Actions CI/CD, AWS (EC2, S3, CloudWatch), Vercel, OAuth 2.0, JWT, RBAC, automated testing (Jest, Playwright), Agile/Scrum

Experience

FlowSpace.co **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Built an AI listing pipeline that orchestrates multi-step LLM agents with tool use, structured output parsing, and retrieval to ingest documents in any format (PDF, web page, photo, spreadsheet) and push validated results to production after human review. Handles hundreds of sources with different formats.
- Designed human-in-the-loop workflows with schema validation, approval gates, and escalation paths so non-technical staff could safely review and approve AI outputs before they reached production.
- Built integrations against customer APIs and booking systems (OfficeRnD, Nexudus), CRM pipelines (Attio, Amplemarket, Swan), and payment flows (Stripe), managing rate limits, webhooks, and retry logic across service boundaries.
- Built RAG-backed support agents that answer customer queries against live platform data and escalate to a person on low confidence. Implemented confidence scoring and retrieval quality monitoring.
- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product. Scaled from 2,000 to 4,500+ users.

Get2Germany.com **Jan 2024 – May 2024**
Developer & Automation Specialist (Part-time) *Berlin, Germany*

Integrated Google APIs, built AI tools to find courses, internships and jobs, and optimized the database. Stack: n8n, Google APIs.

Clubee.com **Sep 2023 – Aug 2024**
Developer & QA (Full-time, Freelance) *Foetz, Luxembourg*

Integrated the Clubee API across the frontend, ran unit testing and QA, and built shop and federation-dashboard tools.

Tractionboard.co **Aug 2023 – Oct 2023**
Developer (Internship) *Utrecht, Netherlands*

Integrated ChatGPT/OpenAI and Sendgrid, built responsive designs, and debugged features.

Freelance Projects

- **Urlink** (2025), Project Manager & AI-Assisted Developer. Worked directly with the client on requirements, built the platform and its logic, and implemented client-driven automations. Stack: Next.js, Supabase, Netlify.
- **UltraStrategy** (2024 to 2025), AI Automation Developer. Built a CV-parsing tool (LLM data extraction) with n8n and Eden AI, and a platform serving different user profiles.
- **Qomodo** (2024 to 2025), AI Developer. Built a dashboard for companies to manage their branches, and implemented Figma designs.

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Education

Ca' Foscari University of Venice Oct 2020 – Jun 2024
BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Work authorization: European Long Term Residence Permit (Italy), no sponsorship needed in the EU; available immediately. Open to relocating to Oslo. **Languages:** Hindi (native), English (professional), Italian (beginner).
