Prabhavit Gupta

Full-Stack Engineer, TypeScript + React + Node.js, Cross-Platform Product Development

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

Full-stack engineer who builds cross-platform products end to end in TypeScript: React and Next.js on the frontend, Node.js on the backend, PostgreSQL underneath, deployed on Vercel and AWS. At FlowSpace I owned technical execution for a live marketplace, from database schema and REST API endpoints through to UI components and automated end-to-end tests with Playwright. I built data pipelines that ingest documents in different formats, validate and transform them through schema enforcement, and push results to production after review. I integrated third-party APIs across booking systems, CRMs, and payment platforms, handling webhooks, rate limits, and retry logic. I ship iteratively in small distributed teams, write tests before shipping, and care about clean code that stays easy to change.

Skills

- **Frontend:** TypeScript, JavaScript, React, Next.js, TailwindCSS, responsive design, component architecture, cross-browser compatibility, single-page applications, Figma-to-code implementation
- **Backend & data:** Node.js, TypeScript, Python, REST API design, PostgreSQL, MySQL, Prisma, Supabase, Redis, Docker, Git, GitHub Actions CI/CD, AWS (EC2, S3), Vercel, automated testing (Jest, Playwright, end-to-end and unit)
- **Integration & tooling:** REST API integration (webhooks, OAuth 2.0, rate-limit handling, retry logic), Stripe, third-party data ingestion, AI-assisted development (Claude Code daily driver, Anthropic API, OpenAI API), structured output parsing, remote-first async collaboration (Slack, Notion)

Experience

FlowSpace.co **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Built an AI listing pipeline that orchestrates multi-step LLM agents with tool use, structured output parsing, and retrieval to ingest documents in any format (PDF, web page, photo, spreadsheet) and push validated results to production after human review. Handles hundreds of sources with different formats.
- Designed human-in-the-loop workflows with schema validation, approval gates, and escalation paths so non-technical staff could safely review and approve AI outputs before they reached production.
- Built integrations against customer APIs and booking systems (OfficeRnD, Nexudus), CRM pipelines (Attio, Amplemarket, Swan), and payment flows (Stripe), managing rate limits, webhooks, and retry logic across service boundaries.
- Built RAG-backed support agents that answer customer queries against live platform data and escalate to a person on low confidence. Implemented confidence scoring and retrieval quality monitoring.
- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product. Scaled from 2,000 to 4,500+ users.

Get2Germany.com **Jan 2024 – May 2024**
Developer & Automation Specialist (Part-time) *Berlin, Germany*

Integrated Google APIs, built AI tools to find courses, internships and jobs, and optimized the database. Stack: n8n, Google APIs.

Clubee.com **Sep 2023 – Aug 2024**
Developer & QA (Full-time, Freelance) *Foetz, Luxembourg*

Integrated the Clubee API across the frontend, ran unit testing and QA, and built shop and federation-dashboard tools.

Tractionboard.co **Aug 2023 – Oct 2023**
Developer (Internship) *Utrecht, Netherlands*

Integrated ChatGPT/OpenAI and Sendgrid, built responsive designs, and debugged features.

Freelance Projects

- **Urlink** (2025), Project Manager & AI-Assisted Developer. Worked directly with the client on requirements, built the platform and its logic, and implemented client-driven automations. Stack: Next.js, Supabase, Netlify.
- **UltraStrategy** (2024 to 2025), AI Automation Developer. Built a CV-parsing tool (LLM data extraction) with n8n and Eden AI, and a platform serving different user profiles.
- **Qomodo** (2024 to 2025), AI Developer. Built a dashboard for companies to manage their branches, and implemented Figma designs.

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

Education

Ca' Foscari University of Venice Oct 2020 – Jun 2024

BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

Work authorization: European Long Term Residence Permit (Italy), no sponsorship needed in the EU; available immediately.
Languages: Hindi (native), English (professional), Italian (beginner).
