# Prabhavit Gupta

Forward AI Deployment Engineer

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

## Summary

I embed with teams and take AI systems from prototype to production. At FlowSpace I owned the full AI layer for a live coworking marketplace: I mapped undocumented operational workflows, built an agentic listing pipeline that takes unstructured documents, extracts structured data via LLMs, runs evals, and pushes verified listings after human review. I also built support agents that query live data and escalate on low confidence. I work directly with non-technical stakeholders to define requirements, prototype fast, and ship systems that keep improving after I move on.

## Skills

- **AI systems in production:** agentic pipelines, RAG, tool calling, structured outputs, retrieval, prompt and context engineering, evaluation pipelines, human-in-the-loop review, guardrails and escalation, LLM APIs (OpenAI, Claude)
- **Languages & frameworks:** TypeScript, JavaScript, Next.js, React, Node.js, Python, Laravel (PHP)
- **Data & integrations:** PostgreSQL, Supabase, REST APIs, webhooks, third-party integrations (Attio, Amplemarket, OfficeRnD, Nexudus, Google, Sendgrid), n8n workflow orchestration, Claude Code
- **Client-facing delivery:** embedding with operational teams, translating business problems into technical plans, stakeholder management, prototyping and iterating on feedback, building systems clients can run independently

## Experience

**FlowSpace.co** **Mar 2024 – Aug 2026**

*Full-Stack & AI Engineer (Full-time, Freelance)* *London, UK (remote)*

- Embedded with the internal team and an external agency to find workflow bottlenecks, then redesigned and automated them with AI. Owned the full cycle from discovery through production deployment.
- Built an agentic listing pipeline with a human in the loop: it takes a brochure in any format (PDF, web page, photo or spreadsheet), extracts structured data via LLMs, evaluates outputs against reference data, and pushes verified listings to the backend after review.
- Built support AI agents that answer customer queries against live platform data and escalate to a person on low confidence. Designed the context retrieval, tool-calling layer, and guardrails.
- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product, mapping the data model and driving the cutover. Scaled it from 2,000 to 4,500+ users.
- Built the feedback loop from day one: telemetry, evaluation pipelines, and human-in-the-loop review so the system kept improving after each deployment.
- Built CRM and GTM automations with n8n, including a pipeline connecting Attio, Amplemarket and Swan, plus OfficeRnD and Nexudus booking integrations.
- Worked directly with non-technical stakeholders to translate vague requirements into concrete technical plans. Presented progress, managed expectations, and escalated blockers early.

**Get2Germany.com** **Jan 2024 – May 2024**

*Developer & Automation Specialist (Part-time)* *Berlin, Germany*

Integrated Google APIs, built AI tools to find courses, internships and jobs, and optimized the database. Stack: n8n, Google APIs.

**Clubee.com** **Sep 2023 – Aug 2024**

*Developer & QA (Full-time, Freelance)* *Foetz, Luxembourg*

Integrated the Clubee API across the frontend, ran unit testing and QA, and built shop and federation-dashboard tools.

**Tractionboard.co** **Aug 2023 – Oct 2023**

*Developer (Internship)* *Utrecht, Netherlands*

Integrated ChatGPT/OpenAI and Sendgrid, built responsive designs, and debugged features.

## Freelance Projects

- **Urlink** (2025), Project Manager & AI-Assisted Developer. Worked directly with the client on requirements, built the platform and its logic, and implemented client-driven automations. Stack: Next.js, Supabase, Netlify.
- **UltraStrategy** (2024 to 2025), AI Automation Developer. Built a CV-parsing tool (LLM data extraction) with n8n and Eden AI, and a platform serving different user profiles.
- **Qomodo** (2024 to 2025), AI Developer. Built a dashboard for companies to manage their branches, and implemented Figma designs.

## Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024)

## Education

**Ca' Foscari University of Venice** Oct 2020 – Jun 2024

BA Philosophy, International Studies & Economics (Minor: Entrepreneurship)

**Work authorization:** European Long Term Residence Permit (Italy), no sponsorship needed in the EU; available immediately.
**Languages:** Hindi (native), English (professional), Italian (beginner).
